

Wilson In Fresh Plea For League of Nations

ARTICLE 10 IS CITED ANEW AS LIFE OF PACT

Issue Has Become Obscured In Campaign, Declares Chief Executive

WASHINGTON, Oct. 27.—Declaring that the Americanization which Senator Harding and the Republicans have been preaching in the present campaign is "spurious and invented for party purposes only," President Wilson today delivered a brief statement to the delegation of pro-league Republicans who called on him at the White House today.

The issue facing the country "is whether we will make good or quit," President Wilson declared today in an appeal for the League of Nations, issued to "my fellow countrymen."

The appeal was read to a deputation of fifteen men and women, members of the Republican party who are supporting the League of Nations.

The president said the League issue had become obscured in the present campaign and he declared the "whole moral force of right in the world" depends upon the United States rather than upon any other nation.

President Wilson again held up Article 10 as the essence of the League, saying, "it is the specific redemption of a pledge which the free governments of the world gave to their people when they entered the war."

CHINESE ON RIOT DUTY IN PETROGRAD

HELSINGFORS, Oct. 27.—Chinese mercenaries are being employed by the Bolshevik government to suppress street fighting in Petrograd and Kropotkin, the naval base, according to advices received here from the former Russian capital.

The Chinese, well armed, were described as enjoying the work.

Rioting by sailors at Kronstadt culminated in the blowing up of two Russian torpedo boats.

HARDING IN DENIAL OF COLBY'S CHARGE

WASHINGTON, Oct. 27.—The state department today was confronted with Senator Harding's flat denial of the statement of Secretary Colby, in which it was asserted Washington D. Vanderlip, who recently secured trade concessions from the Soviet government, was an agent of the Republican nominee.

The statement said, according to a report from the United States consular agent at Riga, Vanderlip told Lenin he represented Harding and "made certain proposals regarding the recognition of the Bolshevik government."

Harding promptly denied he had ever heard of Vanderlip.

It was considered doubtful today that the state department would say anything further about it.

KILLS WIDOW, BURNS HOUSE, SLAYS SELF

HARBOR SPRINGS, Mich., Oct. 27.—John Harada went to the farm of Mrs. Margaret Kennedy, a widow, seven miles north of here, ordered her 6-year-old daughter out of the house, shot Mrs. Kennedy and burned the house.

He then set fire to the barn, put a bullet into his own body and cremated himself and his victim. They had quarrelled over a love affair. The little girl escaped from the burning barn and told the neighbors.

CITIZENS THREATEN DEATH FOR SUSPECT

WATSONVILLE, Cal., Oct. 27.—Feeling continued high here today over the murder of John Whalen, aged special officer, who was killed yesterday by a murderer whose identity has not been definitely established.

Frederick Peano, held as a suspect, was spirited to the Santa Cruz jail late yesterday when an angry crowd of citizens, some armed, gathered around the Watsonville jail and threatened violence.

WEALTHY STUDENT REVEALS MARRIAGE TO STAGE BEAUTY

ROSIE QUINN

When Lewis Burgess, of Omaha, arrived home a few days ago before returning to Princeton to take up his studies, he surprised his parents by introducing them to his bride of several months who was formerly Miss Rosie Quinn of the "Midnight Rounders" playing at the Century Theater in New York. Young Burgess is the son of Mr. and Mrs. Ward Burgess of Omaha. The elder Mrs. Burgess is a leader in social affairs of Omaha. Mr. Burgess is one of the leading merchants of the city. The picture of the bride reveals her as she appeared on the stage.

INQUEST SHOWS 2 AUTO BANDIT SUSPECTS SLAIN

LONDON, Oct. 27.—Terence MacSwiney died of heart failure, according to the verdict in an inquest of the remains of the Irish hunger striker today.

A dilated heart, acute delirium and scurvy, "due to exhaustion from prolonged refusal to take food" brought death, according to the verdict.

With the formality of the inquest out of the way, MacSwiney's body was to be conveyed from the prison mortuary to St. George's cathedral, to lie in state until 11 a. m. tomorrow, when mass will be celebrated by Archbishop Mannix and Bishop Crotty.

Although police were crowded about Brixton prison, there was no attempt to interfere with those who openly voiced their sympathy with MacSwiney's cause or who flaunted the Sinn Fein colors. It was made clear there will be no interference with the funeral plans or funeral crowds so long as no untoward demonstration is started.

Lady Mayoress MacSwiney was keeping up and was ready to accompany her husband's body on the trip to Ireland. Letters and cablegrams from all parts of the world reached her today.

BURY YOUNG HUNGER STRIKER AMONG SOLDIER DEAD

CORK, Oct. 27.—Burial in MacCurtain Circle, a cemetery reserved for Irish soldiers, was accorded Joseph Murphy today.

Mass was said for the youthful hunger striker at 11 a. m. The burial services were to be at 5 p. m.

The body was taken from the jail mortuary last night, priests and Sinn Feiners following the hearse to St. Finbarrs church.

KING ALEXANDER TO BE BURIED FRIDAY

ATHENS, Oct. 27.—King Alexander's body today lay in state in the cathedral of the Greek church.

Draped with flags and simple wreaths, the casket stood in the center of the rotunda under guard of picked troops.

Funeral services and burial will be Friday.

MRS. PEETE HELD ON DEATH CHARGE

LEGION HITS BLAISDELL JAP STAND FARMERS ARE DEMANDING \$3 WHEAT

Speakers Tonight Plan to Fight Pomona's Views on Alien Land Law Grain Quotations Soar as Growers Hold Crop for Higher Prices

Men of the American Legion tonight will cross swords with Dr. J. A. Blaisdell, president of Pomona college.

Dr. Blaisdell is to speak at the Temple Theater at 8 o'clock in opposition to the passage of Amendment No. 1, the alien land act, to be voted on Tuesday.

Santa Ana post will have at least two speakers present vigorously to fight Dr. Blaisdell's stand.

Announcement that Dr. Blaisdell would be here was made by Rev. P. K. Tamura, pastor of the Japanese Presbyterian church at Pasadena. Rev. Tamura has been here several days making arrangements for the meeting. He says that Dr. Blaisdell is to appear under the auspices of the Christian Americanization Conference of Southern California. The Japanese minister stated that Dr. Blaisdell would oppose No. 1.

In his announcement, Rev. Tamura has stated that following the address by Dr. Blaisdell, the meeting would be open for a free discussion.

Wellington Tells Stand

"There is to be no rough-house or anything of that sort," said Wellington, commander of Santa Ana Post No. 121, American Legion, today.

"There will be no attempt to interrupt Dr. Blaisdell's address. However, the meeting has been announced as an open meeting, and the American Legion proposes to take part in the meeting. With the backing of the executive committee of the post, I have issued a call to members of the post to be present to hear the discussion. We will have two speakers present to engage in the free discussion. One of them, from Los Angeles, will be a representative of the Japanese Exclusion League.

The American Legion has a very strong opinion upon the Japanese question. The state convention passed a resolution in favor of amending the constitution of the United States making it impossible for the child of parents who are not eligible to citizenship to become citizens. The national convention also went on record in favor of Japanese exclusion."

WOMAN IS TAKEN FROM HOSPITAL BY FAMILY

The woman found wandering on the sidewalks of Fullerton several days ago, who had been without food or shelter for a number of days, and who was finally discovered to be Mrs. Minnie Lentz, 67, of Fullerton, has been taken from the County hospital by her husband and daughter, and will be cared for by them at the Lentz home.

Mrs. Lentz is said to have been merely temporarily deranged and the incoherent story she told about having left her home because of death threats was said by officers at the hospital to be merely a result of delirium. The Lentz family is well known and respected in the Fullerton district.

ROSS CHOSEN HEAD ONTARIO C. OF C.

ONTARIO, Oct. 27.—Welles T. Ross, prominent business man of Ontario, has been elected president of the Ontario Chamber of Commerce. C. E. Mead was chosen vice president; H. E. Swan, treasurer, and H. E. Hoeger, secretary.

The financial report of the treasurer showed a goodly balance in the bank. The membership committee reported a membership of 571, more than double that of a year ago, attained without a special drive during the year.

It was voted at once to publish new advertising matter for Ontario. A committee was also appointed to aid the Ontario Red Cross and Welfare Society in taking care of the city's poor at Christmas time.

WOMAN, 103, PROPOSES TO CENTURY-OLD MAN

SEWARD, Neb., Oct. 27.—"Better too late than never," is the philosophy of one of Omaha's oldest—in fact the oldest—female residents.

Mrs. Patrick Convey, aged 103, recently took advantage of the leap year opportunities and proposed to Daniel Kennedy, aged 100, of Seward, by the mail route.

Kennedy, who recently made a trip to New York and other cities, taking \$10,000 with him, received the proposition with little enthusiasm. He stated that he was too busy at the present time to accept the invitation and also declared that his lawyers had tied his money up so that marriage was almost out of the question.

AUTOS IN CRASH AT ORANGE INTERSECTION

(Special to the Register.)

ORANGE, Oct. 27.—Four people narrowly escaped injury today when two automobiles, one driven by Fred Husher, of El Modena, and the other by Henry Reuter of Olive, crashed at the intersection of Maple avenue and Cambridge street at noon today. Riding with Husher were Mrs. Husher and their four-year-old daughter. The latter was considerably shaken up. No one was injured. Both cars were badly damaged.

ORDERS WATER RATE RAISE SUSPENSION

SAN FRANCISCO, Oct. 27.—The Cuyamaca Water Company, which recently was authorized by the Railroad Commission to charge higher rates for water sold in the vicinity of San Diego, was ordered to suspend the collection of the new charges because of failure to file with the commission a comprehensive plan of improving parts of the system as ordered.

Judge Criticizes Girl's Mother In Granting Decree

SAN FRANCISCO, Oct. 27.—Mothers who talk to their young daughters more about cars than about being bread gain little sympathy from Superior Judge Mogan.

Mogan expressed his views from the bench when he annulled the marriage of Rose Presnel, 17, to Benjamin Berman, Berman, according to the testimony, had married the girl after promising to make her famous as an aesthetic dancer.

"Your daughter would be better off if you did not keep putting into her head the ideas that she is destined to a grand future as a dancer," the judge told the girl's mother. "You would do better and other mothers would do better if they prepared their daughters for some more substantial work and talked to them less about careers. They would have less to regret later."

COAL MEN IN PLAN TO REDUCE PRICES

CLEVELAND, Ohio, Oct. 27.—Soft coal operators from every mining district in the country gathered here in response to a telegram from Attorney General Palmer, asking cooperation toward lowering coal prices, were preparing today to appoint "fair practice committees" in every section of the country to aid the government in pushing down the cost of coal to the consumer.

The operators voted to "refuse to ask or receive unreasonable prices for bituminous coal."

LEGION ASKS FOR DISMISSAL OF POST

WASHINGTON, Oct. 27.—Formal request for the dismissal from office of Louis F. Post, assistant secretary of labor, was submitted to President Wilson today by a committee of the American Legion.

Representatives of the Legion in the Pacific Coast States demanded last May an investigation of Mr. Post's official conduct with reference to the deportation of aliens.

"It is main contention against Mr. Post," said a Legion announcement, "is that 42 of the aliens ordered deported were actually deported last May at that post. Mr. Post took charge of the matter and the deportations ceased."

'CORKY THE SILENT' RELEASED FROM PEN

BOSTON, Oct. 27.—Patrick C. Hanley, known in the State prison as "Corky the Silent," who was committed in October, 1915, as a habitual criminal and has refused to utter a word for the last ten years, was released today. His sentence, which was prolonged by attempts to escape and a counterfeiting scheme within the prison walls, has expired. Hanley took a vow of silence after a fellow prisoner revealed to the warden a secret plan with which Hanley had entrusted him.

CARPENTER HURT IN FALL OF ELEVEN FEET

(Special to the Register.)

FULLERTON, Oct. 27.—John Mundy, a carpenter, was in bed today, suffering from a sprained left wrist and bruises as a result of falling 11 feet when a joist on which he was standing, fell. The accident occurred in West Whittier avenue, here.

WOMAN MUST FACE KIDNAPING CHARGE

NEW YORK, Oct. 27.—Governor Alfred E. Smith will sign extradition papers at noon tomorrow calling for the return of Miss Betty Brainerd to Washington State to face charges growing out of the alleged kidnaping of George T. Starns, New York newspaper man, he announced today.

MARTIN K. O'S WILLIAMS BOSTON, Oct. 27.—Bob Martin, A. E. F. heavyweight champion, knocked out Larry Williams of Bridgeport, Conn., in one round here last night.

'ENIGMA WOMAN' IN MURDER INDICTMENT PLEADS NOT GUILTY

LOS ANGELES, Oct. 27.—Mrs. Richard C. Peete, formally indicted for the murder of Jacob C. Denton, wealthy mining man, pleaded "not guilty" when arraigned before Superior Judge Willis shortly after noon today.

Following reading of the indictment returned by the county grand jury at 11:45 this morning, Mrs. Peete's plea was given in a clear, determined voice.

After the brief and formal hearing before Judge Willis the accused woman was taken to the county jail.

November 29 was set as the date of trial.

Indictment of Mrs. Peete today brought to a climax one of the most mysterious murders of recent years. The grand jury returned only the one indictment.

The accused woman, who had been under technical arrest since yesterday, was held in the district attorney's office after she refused to testify before the grand jury this morning. Her refusal was on the advice of her attorney, W. J. Ford.

R. C. Peete, husband of the indicted woman, and their five-year-old daughter, Betty, were present when Mrs. Peete was taken to jail.

When brought to the Hall of Records from the hotel at La Crescenta, where she was kept under heavy guard during the night, Mrs. Peete appeared to have completely lost the remarkable composure which she has exhibited since she came from Denver to aid in the murder probe.

Christened the "mystery woman" early in the investigation because of her varying explanations regarding the disappearance of Denton and of her own acts in disposing of effects of the dead man, Mrs. Peete last Monday brought added mystery into the case when she "disappeared."

She surrendered to District Attorney Woolwine late yesterday, after evading officers for more than thirty hours.

While a large part of the evidence is believed to be circumstantial, Woolwine declared today he had additional evidence which has not been made public.

While admitting that he had expected an indictment against Mrs. Peete, Attorney Ford declared the innocence of his client will be shown by a trial.

"We will go over the evidence as disclosed by the transcript and determine our course of action," Ford said.

Asked whether insanity might be a possible defense, Ford declined to discuss that phase of the case.

"I see nothing at this time sufficient to overcome Mrs. Peete's positive statement that she did not commit the crime," he declared.

Judge Russ Avery, through Attorney Rush Blodgett, today applied for authority to act as administrator of the estate of J. C. Denton. Frances Denton, 16, is named as the sole heir to the \$125,000 estate.

MRS. HANDLEY SAYS HUSBAND LOVED HER

LOS ANGELES, Oct. 27.—The mysterious robbery of the home of Lorin A. Handley, late California state prohibition enforcement officer, while funeral services were being conducted for the deceased dry chieftain, today had taken on added significance when Mrs. Lorin A. Handley, his widow, reported that numerous letters and papers had been taken by the intruder.

"These letters are significant only in view of the recent charge that there had been dissension between myself and Mr. Handley," she declared today. Mrs. Handley also intimated today that a compromise of the case seemed unlikely.

Mrs. Lamb recently filed an affidavit charging that she and Handley were engaged to be married as "soon as Mr. Handley could get a divorce."

JUDGE BARRY DIES REDLANDS, Oct. 27.—Judge E. E. Barry, who came here from Kentucky a year ago and who was for a time on the bench in Texas, died at his home on West Fern avenue. He was a prominent Democrat of Kentucky and was president of the local Kentucky Society and an officer of the Christian Church.

MAN ACCUSED IN RUM PLOT HELD

SAN FRANCISCO, Oct. 27.—Jewels Gamage, indicted with Harry Bro-laski, Douglas Newton, Harry Murphy and Gustave Shultes, for alleged conspiracy to violate the prohibition laws, was arrested and brought before United States Commissioner Krull today to be formally charged.

"I am a wholesale liquor dealer, associated with Theodore Bell," Gamage told Krull in response to questions.

He was released on \$10,000 bail.

SAN FRANCISCO, Oct. 27.—Indictments voted several days ago by the grand jury against Harry Bro-laski, Douglas Newton, Jules Gamage and Harry C. Murphy, charging conspiracy to violate the prohibition laws, had been returned formally today.

Bro-laski was arrested under the indictment last night, while the others probably will be served today.

As another development of the liquor investigation today Harry Cooke, private detective, said to be working for Bro-laski, was under arrest charged with interfering with an officer. He was arrested when it was alleged, he attempted to interfere with H. K. Drew, government agent, who was bringing Fred H. Anderson from Reno to testify before the grand jury. Anderson is an important witness in the liquor cases.

MAN IS NEAR DEATH TWICE IN SAME DAY

LOUISVILLE, Ky., Oct. 27.—Twice in one day R. N. Praley of Morgan county almost met death and he is suing for \$10,500.

He was injured in Butler county, where he was drilling an oil well, and while being conveyed to a hospital here the ambulance he was riding in was struck by a street car, injuring him still more seriously.

He asks \$2500 from the owner of the oil well and the same amount from the traction company.

JUDGE BARRY DIES

REDLANDS, Oct. 27.—Judge E. E. Barry, who came here from Kentucky a year ago and who was for a time on the bench in Texas, died at his home on West Fern avenue. He was a prominent Democrat of Kentucky and was president of the local Kentucky Society and an officer of the Christian Church.

What's Going On

Today, Wednesday, Oct. 27.
Social Service League office, 4 p. m.—Annual Red Cross election, Santa Ana chapter.
Temple Theater, 8 p. m.—President Blaisdell, of Pomona College, speaks on Japanese question.
Tomorrow, Thursday, Oct. 28.
Home of Mrs. J. M. Burlew, afternoon—Hospital Alumnae Association meets.
Tustin school house, 7 p. m.—Associated Chambers of Commerce meets.
Junior High School, 3:30 p. m.—Teachers' League meets.
Next Day, Friday, Oct. 29.
City Hall, 7:30 p. m.—City Board of Freeholders meets.

Marriage Licenses

Arcadio Llevanos, 25, and Aurelia R. Hernandez, 28, both of El Modena.
Terry H. Moeller, 21, and Violet Heckert, 19, both of San Diego.
Maurice D. Towle, 35, and Mabel E. MacWhister, 25, both of Belfast, Maine.

Deaths

DEIST—In Santa Ana, Cal., Oct. 27, 1920, at her residence, No. 1907 Bush street, Mrs. Gertrude M. Deist, aged 53 years, wife of J. H. Deist, leaves her husband and a little daughter ten months of age.
She was a sister of Frank L. Smith of 121 East Santa Clara avenue, H. A. Smith of 515 South Broadway and of Mrs. Henry Doring of 518 South Sycamore street.
Services will be from the Mills and Winbiger Mission Funeral Home at a time to be announced after telegraphic word is received from Iowa relatives.

MASONIC NOTICE.
Called meeting of Santa Ana Chapter on Thursday, Oct. 28th, for work in the Royal Arch Degree. Refreshments.
By order of
L. M. FORCEY, High Priest.
G. A. WHIDDEN, Secretary.

On Friday evening at 8 p. m., Oct. 29th, Santa Ana Lodge will have a Ladies' night to which all Masons and their ladies are invited. Sojourning brethren and their ladies cordially invited. Strictly informal.
ROY S. HORTON, W. M.

LUMBER FIRM SUES TO RECOVER ON NOTE

The Griffith Lumber company has brought suit in justice court here to collect \$187 said to be due on a note for \$219 given by J. S. Baker of Zelzah. On its face the note was due on November 1, 1916. Attorney John A. Harvey appeared today for the defendant, and Attorney Kenneth Schovel for the plaintiff. The case was set for Monday morning when arguments on demurrer will be heard. It is understood that the case will be thrown into the superior court at that time.

CITRUS ASSOCIATION FILES STOCK NOTICE

The La Habra Citrus Association filed notice today with the county clerk of its intention to increase its capital stock from \$90,000 to \$210,000. Fourteen thousand shares of the new stock will be issued, having a par value of \$15. The motion to increase the capital stock was recently passed by a vote of 3536 shares, and 41 against.

No Risk With "Diamond Dyes"

Don't Streak your Material in Dyes that Fade or Run

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, everything, whether wool, silk, linen or cotton or mixed goods.
Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druglist has color card, showing 16 rich colors.—Adv.

There's a day on its other side.

City and County

There will be an all-day reunion and picnic of the Illinois State Society of Southern California Saturday, October 30, at Lincoln Park, Los Angeles. This is the original Illinois society and is not connected with the State Federation of Societies. There will be a short program, beginning at 2 o'clock, including brief speeches by prominent speakers from Illinois.

Graduates in this city and county of U. S. C. and Pomona college are looking forward to a big football game between teams of the two institutions to be played on the Claremont gridiron Saturday. With expectation of a number attending from this city fifty tickets have been sent here and placed in the hands of Lamont McFadden. Those desiring tickets may obtain them of McFadden at the McFadden hardware store.

The members of Santa Ana Chapter, American Red Cross, were to meet this afternoon at 4 o'clock for the election of a number of directors to fill vacancies caused by the expiration of terms. The election of a president and secretary will follow.

Nurses of Orange county today looked forward to the meeting to be held tomorrow afternoon at the home of Mrs. J. M. Burlew, 1015 North Broadway, under the auspices of the Santa Ana Hospital Nurses Alumnae. It is proposed to form a county association of nurses at tomorrow's meeting.

A meeting of the executive committee of the Stanford Club of Orange county is to be held at 4:30 o'clock Friday of this week for the purpose of making preliminary arrangements for a Stanford banquet, to be held the evening of November 20, the day of the Stanford-California football game. The Friday meeting will be at the home of the secretary, Miss Estelle Nisson.

Business of importance is to come before a meeting of the Teachers' League tomorrow at 3:30 p. m. at the Junior high school.

Several truckloads of horses yesterday and a truckload of fox hounds today passed through Santa Ana on their way from Hollywood to San Diego on location. The animals belong to the Lasky studios.

Miss Sybil Pritchett, daughter of Mrs. Violet Pritchett, who passed away Sunday morning, is scheduled to arrive in Los Angeles at 9:30 tonight. City Marshal Sam Jernigan expects to meet her there and bring her to Santa Ana. Miss Sybil is coming from Hillsboro, Texas, where she has been visiting her sister, Mrs. C. D. Rankin. Arrangements for the funeral of Mrs. Pritchett, mother of Mrs. Jernigan, were completed today. Services will be held at the chapel of Smith & Tuthill, beginning at 10 o'clock tomorrow morning.

The meeting of the South Section Ladies' Aid of the First M. E. church will be held tomorrow afternoon at 2:30 o'clock at the home of Mrs. A. Vandermast, 425 South Birch street.

Herbert Ball, of Fullerton, was given an interlocutory decree of divorce from Pearl Elizabeth Ball by default today in the court of Superior Judge Z. B. West. The marriage of the Ball took place in Victoria, B. C., in June, 1912. Mrs. Ball is understood to be in Portland, although officers were unable to find her to serve summons. She is alleged to have deserted her husband on July 25, 1919. The name of Vance Volburn was mentioned in the proceedings as being connected with Mrs. Ball's departure. The divorce was asked on the ground of desertion.

J. Durcan has been sent to the county jail to serve thirty days on a vagrancy charge. He was recently arrested and sentenced in Fullerton, after having, it is understood, been taken off a train while "bumming" a ride.

F. H. Schneider, recently arrested in San Diego after having, it is alleged, stolen and sold a bicycle while passing through Anaheim, was tried in that city and sentenced to 90 days in jail.

Indications at noon today pointed to an attendance of approximately seventy-five county boosters at the meeting of the Associated Chambers of Commerce tonight at the Tustin school house.

The luncheon meeting of teams working on the Chamber of Commerce drive scheduled for tomorrow at James's has been postponed to a later date, according to an announcement today of John McFadden, drive chairman.

BIG GOLD SHIPMENT
NEW YORK, Oct. 27.—The steamship Saxonia, from London, Cremona and Halifax, arrived here with nearly \$10,000,000 in gold, consigned to the Federal Reserve Bank.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

HARDING HOLDS AMERICA TO LEAD WORLD

(Note—The following article by Senator Warren G. Harding is the first of a series of four written by the presidential candidates at the request of the United Press. Governor Cox's article will be carried tomorrow. Those by Parley Christensen and Eugene Debs will follow on successive days.)

By Warren G. Harding
Republican Candidate for President
Written for the United Press
(Copyright 1920 by United Press)
MARION, Ohio, Oct. 27.—The experience of this campaign has decidedly strengthened the opinion which I entertained at its beginning, that the American people will insist that those who seek the office for which I have been nominated shall make their appeal for support with consistent and becoming dignity. They do insist, as is their right, that those who seek the greatest gift within the nation's power to bestow, shall frankly present their cause and claims; and it has been my earnest purpose fully and frankly to comply with that proper requirement of the American people. But I am also convinced that whatever savor of the sensational or theatrical should be avoided by whoever makes this appeal.

So far as it lay in me I have done my best to insure that this election should be the great solemn referendum for which President Wilson asked and I am confident that when the result is known it will be recognized that the people have been thinking deeply and rightly on the great issues that have been involved.

It will be recognized, in the light of the result, that the people were in no mood to be diverted by appeals to prejudice or by efforts to introduce irrelevant matters into the campaign. To me this has brought gratifying reassurance of the security of our national future.

The country has splendidly responded to our efforts to show the true nature of the project in internationalism to which some would commit us, thoughtless of the effort upon our nationality and regardless of the danger that acceptance of that project would sacrifice both our national independence and our best influence in the councils of civilization.

America stands at the threshold of world leadership, and has the courage to grasp it. America realizes, too, that this opportunity of leadership was well nigh lost to her through the misapplied ambition to shape a world order, regardless of every other consideration save ambition's own determination to control.

Today the world looks to unselfish America to lead the way to concord and peace.

The Republican party, and I as its spokesman, intend that this hope shall not be in vain.

Believing this, I have discussed with all earnestness the dangers lurking in the Paris league of nations. This is no time for trifling appeals and thoughtless words. This is a time for sincere and earnest consideration, and I know that the American people will agree with me, and that their agreement will be the very chief to all the world when we shall have before us the returns from our national referendum on Nov. 2.

DEMPSEY WILL GET \$300,000 FOR BOUT

NEW YORK, Oct. 27.—An agreement for a match here between Champion Jack Dempsey and Georges Carpentier will be signed when the articles have been re-drafted. Manager Jack Kearns announced for Dempsey today. It was believed the agreement would be reached late today.

Kearns' objection to the articles was that the provision for the depositing of forfeits. Other terms were satisfactory.
It is understood Dempsey has been guaranteed \$300,000 for his end, while Carpentier is to get \$200,000.
The bout, "not less than ten rounds and not more than fifteen, to decide on or no decision, the locality will permit," will be held between January 1 and July 4, 1921. The promoters must select the site and post a \$100,000 forfeit before January 1. The two principals must post \$50,000 each and be notified at least sixty days before the fight.
If the state boxing commission will sanction the affair, it will be fought in or around New York, probably on July 4.

MISSIONARY PASSES AWAY.
REDLANDS, Oct. 27.—Mrs. Mary W. Lewis, wife of Dr. George Lewis, and for fourteen years a missionary in China, is dead, at the family home on Eureka street. She had been ill for several months and came to this country on furlough, deciding to spend at least two years in Redlands. Her illness became serious last week.

Mr. and Mrs. Lewis were natives of Ohio, graduates of Denison University, and went from there to China. Mrs. Lewis is survived by her husband, five children and her mother.

PLAN TEACHERS' INSTITUTE.
SAN BERNARDINO, Oct. 27.—Teachers of this city and county will hold their institute sessions December 20, 21 and 22. Superintendent Crandall announced. Meetings will be held in the high school during the three days. Thursday and Friday, December 23 and 24, the teachers will be given an opportunity to attend the institute in Los Angeles.

KILLS MOUNTAIN LION.
SANTA BARBARA, Oct. 27.—"Jerry" Johnson of Santa Barbara, of the United States Biological survey, has bagged another mountain lion. In addition Johnson during the past month added to his record eight bobcats and eleven coyotes, which he bagged mostly in the Cuyama district.

"WHITE STAR Laundry Tablets make washing easy."

Cotton challies, 36-inch, in light and dark colorings, splendid variety; special, 27 1/2c a yard.

INDICTMENTS NEAR IN BALL SCANDAL

CHICAGO, Oct. 27.—Formal indictment of baseball players and gamblers involved in the fixed 1919 world series will be returned this week by the Cook county grand jury which has been investigating baseball scandals, it was expected here today.

Evidence taking was concluded with the testimony of Joe Gedeon, St. Louis American league second baseman. The jury will now devote its attention to baseball pools, expecting to finish in a few days and report.
That Charles A. Comiskey, owner of the Sox, had knowledge of the bribery in 1919 was the statement of Harry Redmond of East St. Louis. Redmond declared he sat in at a meeting of the "fixers" and later told the story to Comiskey. Indictments charging a conspiracy to do an illegal act have already been voted by the grand jury against ten players, two gamblers and Abe Attell. Three of the players confessed.

DIVORCES COUNT

PARIS—Comtesse Jean de la Greze, daughter of Charles Steele of the J. P. Morgan Co. has been granted a divorce in the French courts. Friends and relatives refuse to discuss the details. The marriage of Count de la Greze and Miss Eleanor H. Steele took place in the autumn of 1910.

WOMEN TO AID MAN IN LOVE TRIANGLE

LOS ANGELES, Oct. 27.—With both Florence Hart, motion picture actress, and wife of Alfred Cross, alleged white slaver, and pretty Myrtle Miles, 22, whom Cross is charged with having brought here from Hamilton, Ontario, via Duluth, Minn., prepared to take the witness stand in his behalf, the actor today confidently expected dismissal of the charge when he is arraigned in federal court on Nov. 3.
"I will do all I can to secure his release, even if it is necessary for me to give him up," Mrs. Cross said. "And I have forgiven Myrtle, too—she loved him."
"I pair my own way out here," Miss Miles has said.
Dismissal of larceny charges against the girl several days ago followed an investigation.
"Perhaps I am more to blame for the affair than my husband," Mrs. Cross said. "I took his love too much for granted."
Cross is alleged to have maintained a dual existence for several months, alternately bestowing his affections on the two women.

WALNUT PRICE SUIT TAKEN OFF CALENDAR

The case of Pyne vs. Gowari and Rosenberg brothers of Los Angeles, was declared off calendar this morning in Superior Judge R. J. Williams' court, after a jury had been drawn to settle the dispute. It is understood the reason for the move was a compromise had been agreed to.

E. Walter Pyne claimed to have an oral contract in 1915 with the Rosenberg company to sell all his walnuts to them for two years at the highest rate they paid anyone else, a rate which in any event was not to be more than 1 1/2c less than the rate fixed by the Southern California Walnut Growers' association. He claimed payment for his walnuts at the rate of 30c per lb.

The company, on the other hand, claimed no such agreement was made, and that they had agreed to take the entire crop at a flat rate of 27c per lb. Pyne claimed that \$4156 was due him. Ward and Chapman of Los Angeles, represented the plaintiff, and Evans, Abbott and Pearce the defendant.

For United States Senator, Samuel Shortridge
For Member of Congress, Phil D. Swing
For State Senator, Walter Eden
For Member of Assembly, W. O. Hart

"PUBLICATION IS EARNESTLY REQUESTED"

The Register receives enough
political "copy" every day, pub-
lication of which is earnestly
requested to fill the paper twice
over. So if the communica-
tion or clipping or circular or
letter you sent in with such re-
quest does not appear, you will
know why.

GOOD EVENING.
"Sunshine, pass the sunshine
When the gray day comes along;
Sunshine, pass the sunshine,
And accompany it with song.
Sunshine—through the shadows
Let your little ray of life
Spread the sweetness of its glory
O'er the ruffled sea of strife."

INVERSE RATIO

High tide in the Democratic cam-
paign came on the day after the San
Francisco convention. From that day
to this, Cox has declined in the esti-
mation of the American people. On
the day after the Chicago convention,
there were many expressions of dis-
appointment over the nomination,
disappointment felt by persons who
preferred another for the head of the
Republican ticket, but from that day
to this there has been a steadily
rising tide of public favor for Sen-
ator Harding. His every public utter-
ance, his dignity, his serious frame
of mind in discussing governmental
affairs, his statesmanlike grasp of
problems both domestic and foreign,
have combined to win for him the
confidence of even his political op-
ponents. The greatest strength of
Cox was on the day of his nomina-
tion; the greatest strength of Har-
ding will be on November 2.

WHO'S WHO CHANGES

Labor is rounding to, partly be-
cause the shortage of jobs is giving
the laborer a healthy interest in
holding the one he has, and partly
because this great member of the
machinery of production is reverting
to a more normal state of mind along
with those who direct it.
An illustration in point was given
recently by an Italian contractor, to
John N. Cole, commissioner of public
works for Massachusetts, and retold
by Mr. Cole at a conference on high-
ways. "Today," said the contractor,
"I say to the workman, you take
that pick and dig, or I smash your
head. Before, when told to go to
work, the laborer replied, 'You shut
up, or I smash your head.'"
The illustration is crude, but
potent, and the hopeful thing about
it is that followed to its proper con-
clusion, no head smashing will be
necessary at all.
When the workman is appreciative
enough of the desirability of his job
to do a full day's work, he will suf-
ficiently increase production so that
his employer can pay him well and
treat him well. Harmony and effi-
ciency are the result, and when har-
mony and efficiency govern produc-
tion head smashing is numbered with
the lost arts.

In regard to the Harris bill, there
are still a good many voters who do
not understand that a state as well
as a federal enforcement law is re-
quired by the constitution, and has
been enacted by most states; that
enforcement cannot be effective with-
out a state enforcement law; and
that the only alternatives are either
an enormously expensive federal en-
forcement brigade, or a reign of law-
lessness which would work the gravest
material and social harm to the
state.

PUBLIC INSURANCE

An Ohio county has suddenly found
itself without any fire insurance or
other protection on its \$12,000,000
worth of public buildings. Insurance
on this public property was dropped
about eight months ago when the
county prosecutor expressed the
opinion that county commissioners
had no authority to pay out money
for insurance premiums.

The prosecutor holds that the
county is big enough to carry its
own insurance, but up to this time
no plans have been worked out for
doing this. It is possible, however,
for the county to issue bonds to take
care of the loss in case of fire.

Officials in a number of other
counties in Ohio have expressed sur-
prise at the situation. Many of them

carry large insurance, and some of
them have greatly increased and even
doubled their insurance since prop-
erty values have risen so much. One
county carried riot insurance during
the steel strike.

This is a question in which the
public has a keen interest. If insur-
ance in that particular county has
been carried for some time the pub-
lic has a right to know why this was
done illegally, or if legally, why it
is allowed to lapse before any other
protection arrangement is made. One
county official stated his position
thus:

"It is our opinion that should one
of the buildings be destroyed by fire,
with no insurance on it, the public
certainly would criticize our neglect
in this respect." He was putting the
case mildly.

Certainly citizens in any com-
munity, whether town, county or
state, have a right to expect that the
buildings which their taxes have
constructed and are maintaining
should be protected. If there is a bet-
ter way to do this than by carrying
regular insurance, it is up to the
officials in authority to find that
method and make it effective. In any
case, and whatever form the insur-
ance takes, there should be protec-
tion.

For Shortridge

Shortridge has made a clean con-
structive campaign and one that ap-
peals to the farmers particularly. He
has made the point clear that he
would foster growers marketing as-
sociations as against the present
policy of making it difficult for them
to operate by prosecuting them. He
believes that the farmers should pool
their interests sufficiently to insure
them a fair price for their products,
eliminating the speculators in food
and other crops so that the consum-
er will also be able to buy at a fair
price.
But the greatest strength of
Shortridge among the citrus, bean,
almond and other growers, lies in
his sound protective tariff policies.
He believes that it is up to congress
to do something to relieve the in-
dustries of the country that are al-
ready entering upon ruinous com-
petition with foreign grown and
manufactured goods, shipped here
with cheap freight charges and lit-
tle protective tariff to pay and
bumped by conditions of interna-
tional exchange that mean tremen-
dous losses. Constructive emergency
legislation is what the country can
see is possible as soon as a Republi-
can administration is returned. If
there is any doubt about a complete
Republican administration it is in
the Senate and California cannot af-
ford to elect a Democratic senator at
the same time it votes for a Republi-
can President. The latter's hands
should not be tied. A vote for
Shortridge means support for
Harding—President to be.

Just Piffle

San Bernardino Sun—
It is small compliment that Sen-
ator Phelan pays to his audience
when he expects to get by with any-
thing like this, which he used in San
Bernardino, and it is also sent out
in his paid publicity. It should be
explained that by "him" he refers
to his opponent, Mr. Shortridge.
"Let him tell his audiences that for
two years the Republican party has
been in complete control of both
Houses of Congress and that no tariff
laws have either been proposed nor
enacted for a suffering people."
No, they have been neither pro-
posed nor enacted, for the reason
that every Republican knew, just
as Senator Phelan knows, that if
bills adjusting the tariff were passed
they would be vetoed in the White
House, and Congress has been too
busy to pass measures merely for
the fun of putting Woodrow Wilson
in a hole.
Yet the Senator from California,
who now seeks re-election, hopes to
fool some thoughtless voter by mak-
ing him think that all the Republi-
cans had to do, if they wished to
change the tariff, was to jam a bill
through Congress. Does he suppose
voters do not know that the Presi-
dent has the veto power? And does
anybody suppose the present Presi-
dent has changed his mind on the
necessities of a tariff?

First Wash Day

Stockton Record—
When New England celebrates
the centenary of the landing of
the Pilgrims, Mr. Shortridge, the
housewives of America might, if
they cared to, with equal appro-
priateness celebrate the three hun-
dredth anniversary of the custom of
observing Monday as washday.
On Saturday, Nov. 11, 1620, 16 of
the bravest Pilgrims, under Captain
Myles Standish (there was a hero
for you!) left the Mayflower on a
prospecting tour land. Sunday
the party rested, but on Monday,
Nov. 13, they again disembarked,
and this time they took some of the
brave women with them, carrying
their bodily through the breakers
into the shallow water and so on
land. The women at once inaugu-
rated a wash day. Since that time,
300 years ago, Monday is the recog-
nized wash day of the country.

Editorial Shorts

There are thirty thousand poets
in Japan, which is another reason
for California to worry.—Little Rock
Arkansas Gazette.

If things keep going as they are,
the theaters will need their asbestos
curtains to protect the audience
from the plays.—New York Herald.

Comiskey has put to his credit the
most remarkable play in the history
of the game by retiring eight men
on a foul ball.—New York World.

A plot to assassinate General Over-
ton is alleged to have been discov-
ered, which goes to show that
Mexicans are moving normally.—
Pittsburgh Gazette-Times.

The Altoona pastor who declared
that "the eight-hour man with a six-
teen-hour wife needs to unionize the
home" has been censured a valuable
thought.—Pittsburgh Gazette-Times.

Theodore Roosevelt His Birthday, October 27

HE SPEAKS TO US TODAY

He speaks to us today.
Do you not hear him say—
"America?"
Do you not hear him say—
"Brave hearts, do not betray
America?"
Do you not hear him say—
"You must not barter away
America?"
Do you not hear him say—
"You must not slay
America?"
Do you not hear him say—
"Preserve—until the judgment day—
America?"

Sidney Austin Witherbee*

* Mr. Witherbee believes that the voice of Theodore Roosevelt can be heard
throughout the land he loved and held so dear, and that it will be echoed at
the polls on November 2nd, and that our American Independence will be pre-
served.

Worth While Verses

LET HIM SING TO ME

Let him sing to me
Who sees the watching of the stars above the day—
Who hears the singing of the sunrise on its way—
Through all the night.
Who outfaces skies, outstays the storms.

Let him sing to me
Who is the sky-voice, the thunder-voice,
Who hears above the wind's fast flying shrouds—
The drifted darkness, the heavenly strife,
The singing on the sunny sides of all the clouds
Of his own life.

—Anonymous.

TODAY'S TALK

By George Matthew Adams

THE NICETIES

The big traits of human character we admire and are inspired by. But
the little, full-of-thought, often forgotten niceties of action that many people
have a way of bringing out, are what we love.
I know a man of great talent and ability. He is known all over the
country for his genius. But to me his little kindnesses and generous im-
pulses, that are forever cropping out all the time that I am with him, mean
more than anything else.
It's the niceties of life which make it beautiful and wonderful.
What are some of the niceties? Well, to think of the other fellow
first is a very extraordinary nicety. To do little, out-of-the-way things for
folks you like, to be considerate, to forgive unintentional hurts, to try to
conform to the pleasures and wishes of those with whom you may be thrown
—to help, to cheer, to be game, to be courteous, to keep step—these are
a few of the niceties which help to make our little lives happier.
Mothers are all wrapped up in niceties.
Niceties are the trappings of service. Without them, there would be
little to service. For as "the gift without the giver is bare," so is service
without the heart and feeling of the man expressed in his peculiar niceties,
stripped and barren.
Cultivate the niceties. Appropriate them in the characters and ac-
tions of those you love. And try to spread them around. Lots of people
are looking for them!

The People's Forum

Brief communications will be pub-
lished under this head, provided they
are signed by the author. However,
the Editor shall be the sole judge as

STUDENTS HAVE TO SIT ON THE FLOOR

Berkeley, Cal., Oct. 16, '20.
Editor Santa Ana Register:
As a former graduate of the Santa
Ana junior college, now a student
at the University of California, I
ask your support for Amendment
12. The university is desperately in
need of the fixed income which
would be afforded it through this
measure.
At present the classroom space,
equipment and teaching force are
absolutely inadequate. I have per-
sonally attended classes where stu-
dents were obliged to sit on the
floor for lack of seats. Every stu-
dent knows how badly the amend-
ment is needed, and the student
body is a unit in working for this
end.

DOROTHY SQUIRES.

Expert Marcel Waving, Mrs. Cav-
ins' Toilet Parlors. 116 E. 4th St.

GLEANINGS

Real Assistance.
"I have heard that your wife is
of great value to you in your work,"
said the friend of the novelist, "I
had no idea she was literary."
"She isn't, but she never attempts
to straighten out my desk," ex-
plained the novelist.—London Opinion.

Was No Mechanic.

George—What, 'Enry, out of a job
again?
'Enry—Yes. I had to resign. They
set me to push a wheelbarrow, and
what do I know of machinery?
—From Answers, London.

His First Thought.

Mr. Tarzan Jones was sitting
down to breakfast one morning
when he was astounded to see in
the paper an announcement of his
own death.
He rang up friend Howard Smith
at once. "Halloo, Smith!" he said.
"Have you seen the announcement
of my death in the paper?"
"Yes," replied Smith, "where are
you speaking from?"—London Tele-
graph.

Halloween Masquerade Dance at
Neill's Hall, Oct. 30th. Two cash

Arguments Are Presented Here On Proposed State Legislation

Statements for or against any of the amendments or initiative or
referendum measures to be voted on at the November election will be pub-
lished under this heading. The Register desires that the questions at issue
be presented fairly and fully. Brevity has strength, and repetition should
be avoided. Publication shall not be construed as an expression of the views
of the Register.

ARGUMENT AGAINST ANTI-VIVISECTION AND ANTI-VACCINATION

Los Angeles, Calif.
September 30, 1920.
Chamber of Commerce of Los An-
geles, Los Angeles, Calif.

Dear Sirs:
May I direct your attention to
and solicit your consideration es-
pecially of two measures which will
appear on the ballot in the No-
vember election as Nos. 6 and 7.
These measures constitute a most
dangerous attack on our public
health and if passed will very seri-
ously hamper the work of our boards
of health of state, counties and cit-
ies.

They are known as:
6. Initiative Prohibiting Compul-
sory Vaccination.
7. Initiative Act Prohibiting
Vivisection.

The proposed Anti-Vaccination
Constitutional Amendment would
preclude the operation and passage
of laws excluding non-vaccinated
children or teachers from public
school attendance in times of out-
breaks of small pox or any other
disease which is controllable by
any sort of medication. It is so
worded that it would preclude the
examination of pupils or teachers
to ascertain if they were infected
with any sort of contagious dis-
orders, such as lice, itch, ring worm,
contagious sores, pink eye, diph-
theria, tuberculosis, scarlet fever,
infantile paralysis, small pox and
other diseases; or if perchance it
were discovered that they were so
infected, would preclude the require-
ment of any treatment for the cor-
rection thereof as a condition to
such attendance at school.

The proposed anti-vivisection act,
would preclude any sort of experi-
mentation on dumb animals; which,
if in the nature of operations, are
always performed under anaesthe-
sia. And the following vaccines and
serums would be non-procurable for
the prevention or cure of dread dis-
eases, to-wit: vaccine to prevent
small pox; antitoxin to cure diph-
theria; vaccine for treatment of hy-
drophobia; antitoxin to prevent lock
jaw; anti-meningitis serum for
treatment of epidemic meningitis;

and serum for immunization of
hogs against hog cholera. And if
this proposition became a law, it
would preclude the use of the guinea
pig which is absolutely necessary
to the making of the Wassermann
test for syphilis; also experimen-
tation upon fleas, ground squirrels
and rats which experiments are
necessary for the determination of
the existence and proper treatment
of bubonic plague, which is not in-
frequently introduced to our har-
bor; the use of certain birds which
is necessary for the determination
of the existence of carbon monox-
ide, gas (damps) in mines; also it
would preclude the use of birds to
determine the nature of poisonous
gases used in times of war and for
the discovery of substances to coun-
teract the deadly effects of gasses
used by the enemy army; it would
preclude the production of the serum
for the cure of cholera in hogs; and
it would render impossible the
certification of milk by the public
authorities, the test of cows for tu-
berculosis being prevented.

I bring these matters to your at-
tention for the sole reason that by
these propositions a concerted at-
tack is made upon the public health
and if they become a law would be
a staggering blow to the institutions
and seriously hamper the govern-
mental officers whose function it is
to preserve the health of citizens,
prevent or eradicate epidemics of
contagious diseases, to protect the
flocks and herds of the husband-
man and the fruit trees and crops
of our horticulturists and to save
the grain, grasses and other prod-
ucts of our farmers from destruc-
tion.

The proposed measures are, it
seems to me, a very serious men-
ace to the health and to the indus-
tries and enterprises of our citi-
zens.

So important are these matters
that I think your organization may
well declare itself as opposed there-
to. Respectfully,

(Signed) WALTER BORDWELL.
*Walter Bordwell was for many
years a Judge of the Superior court
in Los Angeles.

WHY YOU SHOULD VOTE NO ON AMENDMENT NO. 13.

Although the Register has al-
ready covered quite fully the argu-
ments for and against the "Com-
munity Property Law," the follow-
ing is published by earnest request.

Garret W. McEnerney, an ac-
knowledgeed leader of the California
Bar, said before the Commonwealth
Club of San Francisco:
"This is the most mischievous
law that has ever been passed in
California."

"The proposed act, in giving the
wife all of the community property,
doubles the amount which she re-
ceives under the present law, and
totally excludes the husband's chil-
dren (whether by the surviving wife
or a former wife), and if he has no
descendants it excludes his collat-
eral kin."

"The present law has existed for
nearly sixty years. It has become
a part of the social structure of
the state. Men now know that if they
indulge their natural inclination to
put off making a will and die intestate,
their wives will be provided for
and their children and collat-
erals will not be excluded. It will
be long before they realize the ef-
fect of the radical changes which
the proposed law will make."

"Women themselves will view the
measure with concern. Some wives
may be inclined to favor it, but
mothers of sons and sisters of brothers
will regard it in a very different
light."

"Every will now in existence
which a husband has made and
which disposes of community prop-
erty, whether it affects \$5,000 or
\$5,000,000, will be rendered invalid
in so far as it makes any provision
other than for the wife or the hus-
band's lineal descendants."

"The proposed act provides that
if a wife dies before her husband
she may will one-half of the com-
munity property to her children
(whether by her surviving hus-
band, or a former husband), and
abolishes the long-established rule
that upon the death of the wife the
entire community property remains
in the surviving husband."

"It does not seem to have been
noticed what a disastrous effect this
might have upon a going business.
Thousands of men are engaged in
commercial business and other en-
terprises in this State in which their
entire capital is composed of com-
munity property. If the wife of such
a man dies, his business stops. Ad-
ministration must take place at
least as to one-half thereof, and the
financial sacrifices that must be
made will necessarily be very great.
I do not suppose the authors of the
bill understood this effect and clear-
ly the Legislature did not."

"I cannot understand how any
self-respecting woman would wish
to inflict such injury upon her sur-
viving heirs, especially with re-
spect to property which, in the ma-
jority of cases, has been largely the
result of her husband's exertions
and ability."

Mrs. Clara Shortridge Foltz, ar-
dent suffragist and the first woman
admitted to the practice of law in
California said:

"In my judgment this bill should
not become a law.
"In our efforts to legislate, we
must not precipitate into law ill-
digested, one-sided and impossible
provisions. In other words we must
not allow ourselves as women to
rush headlong, moved, it may be
in a few instances, by some idea of
superiority over men—to express
our fads and fancies into law, to the
utter confusion of courts and the
distraction of lawyers."

"In my judgment we should guard
against dubious legislation in the
first instance and enact laws for
the protection of the wife which
shall protect her husband also—
that the community interests of the
wife shall be protected without in-
jury and possible confiscation of the
husband's business."

Honorable J. Sloss, former
Justice of the Supreme Court of
California, before the California

Bar Association at Monterey, Cal.,
said:

"It is my belief that the people at
the coming election should reject
the measure."
"Justice . . . should be re-
moved. But not by substituting new
injustices for old or by introducing
confusion, uncertainty and difficul-
ty into a system which, whatever its
defects, is reasonably simple and
well understood."

"The people of California should
not be asked to approve a law
which makes a confused patchwork
of a relation which should, in the
interest of every one, be worked
out upon one or the other of two
conflicting theories."

Cholly Mack Says

Workmen wear 'em on their
wrists, but too many of them are
stop watches.

"Wanted pen and dog. Prefer fe-
male, as must be reasonable" want-
ads a Main paper. The female is al-
ways, etc.

SUNDAY SCHOOL CLASS TO MEET IN THEATER

Probation Officer to Lead Men's Bible Study Organization

A Sunday school class is to be conducted in a Santa Ana theater every Sunday morning. Probation Officer Paul E. Wright is to be teacher of the class.

This announcement was made last night at the monthly dinner of the Men's Bible class of the First Christian church.

"Our plan," said W. B. Martin, leader of the class, "is to have a huge Bible class to which men who do not ordinarily go to church, as well as regular church attendants, may belong. The plan is to have some theater available for the meetings. Committees to work out the plan will be announced next Sunday."

Paul E. Wright was formerly pastor of the First Christian church here. Recently he was appointed probation officer.

A very excellent chicken dinner was served in the First Christian church community house last evening.

A number of pleasing selections were played by the Sunset Evangelistic orchestra, the name selected by Rev. Wright and his son and daughter and Miss Elizabeth Parslow for their orchestra, which was used in Rev. Wright's evangelistic meetings in Missouri recently.

Speaks For Square Deal

"A real man believes in a square deal," declared Rev. Harry Hill, pastor of the First Christian church at Orange, who was the speaker for the dinner. "It is my belief that the man who lives in a Christian community and accepts all of the benefits of Christianity is not giving Christ a square deal unless he accepts Christ and aids Him in His work."

"This is a period in religious history when the influence of men is great. Men are taking a greater part in church work now than ever before. This interest is due largely to the Y. M. C. A. and the Brotherhood movement."

"Men, apply Christian principles to business. If business men apply the doctrines of Christ to their business affairs they will get rid of strikes."

"I believe that the principles of Christ should have something to say as to how we are going to treat the Chinese and the Japanese. There is but one question that should be asked in regard to the League of Nations, and that is, 'Is it Christian?'"

"The reason why there is such a growing number of independent voters is that Christian men and women are voting their convictions."

NEW MEXICAN ENVY

WASHINGTON — Manuel C. Tellez will represent the Mexican government here, following the departure of High Commissioner Fernando Calderon. Calderon and his whole staff are leaving. He was unable to settle oil controversies between his government and the United States because of a lack of cooperation by Mexico.

TRIES ROUGH CHANNEL ON WATERCYCLE

LONDON—The English Channel, renowned for its roughness and for making people even on big vessels seasick, was braved by a woman on a bicycle—with a couple of boats! The picture shows Miss Zotta Hill and her watercycle on which she made a plucky attempt to cross the channel. She was forced to abandon the trip about three miles off the English coast.

Shooting Case Testimony Results in Fist Fight at Garden Grove

(Special to the Register)

GARDEN GROVE, Oct. 27.—Harry Jentzen is suffering from various contusions about the face and James Davis has a broken hand today as the result of a fist encounter staged here yesterday.

The combat was the result of testimony given by Jentzen who was on the witness stand at the trial at Santa Ana of Charles Whitesell on a charge of assault with a deadly weapon. Davis is a brother of Mrs. Whitesell. Jentzen was a witness for the defense.

The encounter took place in front of the dry goods store of Simon Horowitz. Horowitz was decorating his windows at the time and rushed out to separate the belligerents. He is said to have been knocked down and kicked by Davis, who is a big man.

Horowitz called Constable Clark and swore to a complaint against Davis. It is not yet known what action will be taken against Davis in the matter.

ENGLAND SEEKS TO END STRIKE MENACE

LONDON, Oct. 27.—Important agreements to prevent a future coal strike will be embodied in the settlement of the British walkout, expected shortly, it was announced today.

Negotiations between the government and miners came to a halt last night due to a disagreement over certain proposals of colliery owners, it was said, but the discussion was to begin again at noon today.

The Trades Union congress, representing over six million workers, went into session today. It was believed the congress would be asked to keep its hands off the coal problem.

The outstanding peace development was expected to be the creation of a national wage board, reported assume responsibility for wage agreements as well as coal production.

The strike in a period of nine day cost \$180,000,000, or as much as an equal number of days of the great war.

MRS. VANDERBILT AND GEN. MILES BOLT COX

NEW YORK, Oct. 27.—The resignation of Mrs. William K. Vanderbilt Jr. as a member of the finance committee of the Democratic National Committee and her support of the Republican ticket through a campaign contribution was announced at Republican headquarters. Mrs. Vanderbilt was reported to have said that she was unable to continue to support Governor Cox and had decided to vote for Senator Harding.

ENTRIES CLOSE FOR LIVESTOCK EXHIBIT

PORTLAND, Ore., Oct. 27.—Entries for the Pacific International Livestock Exposition, which will be held here November 13 to 20, have been closed, showing an average increase of sixty per cent in all classes.

Approximately two acres of space additional to the six acres provided by the half million dollar stock show plant which was building last year will be needed to shelter this year's purebred livestock. Nearly three hundred breeders in the Pacific coast and mountain states and Western Canada have entered the flower of their flocks and herds.

Not All Lost.

"Ernest," she gasped, choking back her tears, "father has lost all!"

"Not all!" he exclaimed.

"Yes, all!"

"Never!" he said, bravely pulling himself together. "You, Miranda, still are left to him. I could not be so cruel as to take the last of his wealth."

"Ernest!"

"No!" Firmly he held her off. "Tell him, Miranda, tell him from me, that his generosity toward me demands that I leave him what little lies in my power."—From the Pittsburgh Chronicle-Telegraph.

PSYCHOPATHIC WARD MATTER IS HELD UP

The decision to build a modern psychopathic ward at the County hospital for the confinement and treatment of insane cases in Orange County was again postponed by the board of supervisors.

Dr. H. E. Zaiser, head of the County hospital, testified as to the needs of the hospital in this respect.

His proposal was to build a separate, two-story building, of such a nature that escape from it would be impossible, one story to be used for men, and the other for women. The building would be equipped with the very latest European therapeutic equipment for the giving of treatment by means of baths of various temperatures, or of various mineral qualities.

This method, said Dr. Zaiser, represents the only permanent way to bring relief to insane cases, and offers a means of quieting violent cases by means of baths instead of having to use hypodermic injections of opiates, as is at present done in order to relieve patients and to keep them from disturbing the other patients in the hospital.

The new building would have sufficient room to handle twelve cases, thus providing for the future, and not making it necessary for the supervisors to have to tear down the building within a few years in case the county's population increases, as there is every reason to believe the new building would have a heavy scenic porch for the less violent cases in which they might get exercise and fresh air.

Visits to Norway.

Dr. Zaiser recently went to Norway to look over conditions there. He reported them as being not very satisfactory.

Regarding the confining of jail cases in case of sickness in the new building, Dr. Zaiser said it is his impression that the law forbids the confining of such cases with the insane cases, but that this difficulty could be got around by having a cell or two blocked off separately from the rest of the ward, thus separating the cases without the meaning of the law, and not permitting association of the two classes of prisoners.

Dr. Zaiser said that it is neither fair nor right to ask the people of Orange county whose mothers or fathers or other relatives become deranged through no fault of their own, and need to be confined, to be put into the county jail, or confined with criminal cases at the hospital. Neither is it right, he said, to those patients who are taken to the county hospital for other sickness or injuries to be disturbed and their nerves shattered by the noise made by the insane patients who are now confined in the same building.

It was estimated that the new building would cost between \$15,000 and \$20,000.

Decide to Wait.

The supervisors decided to delay the consideration for five or six months at least. The matter has been put off for the past two years. The supervisors do not want to spend the money just at present, and feel that by building the structure they might not be able to keep within their tax rate appropriation.

Dr. Zaiser testified that he could get along in a semi-satisfactory manner with the present accommodations temporarily, but that eventually a building would have to be, and should be built.

Among the comments made by the various supervisors were:

"I don't think it is time to build a building like that."

"We can get along temporarily with what we have, except for criticism."

"I should think it would be cheaper just to hire a guard to watch the insane cases who might escape, or prisoners sent there who might pick the locks, as the last one did."

"In five or six months we should be in better shape to consider the erection of such a building."

"We might build a small one-story building, with the idea of adding to it later."

Make Sure of It

Riverside Press

The election of a member of congress and a senator of the United States are just as important on election day as the choice of a president.

This district has a great chance to reverse the political power in Washington on election day. Our congressman will surely be the young Republican, Phil D. Swing of El Centro. If a district ever demanded wise legislation and conservative building, it is the eleventh congressional district of California. In it deserts have turned into gardens. Industries have developed worth tens of millions, new communities are springing up and railroads are being built. It needs the brains of our best men and the fostering care of the Republican policies. All progressing districts want Republican watchfulness. Phil D. Swing will add new zest to the momentum of things that want government aid. He is a young man who will throw his soul into working for the eleventh, and his influence will be felt from the first hour of arrival in Washington.

Then do not forget your stamp of approval of the nomination of Samuel M. Shortridge as United States senator. He is an ideal candidate for the office. He has the ripeness of years of public service, has a trained mentality for solving public questions, a mind that tears away the husks of doubt and is supplemented by a very eloquent tongue and a clear conception.

WOMAN HAS UNIQUE DECORATING SCHEME

LONDON, Oct. 27.—Lady Sackville, wife of a nephew of a former British minister to Washington, has adopted a unique method of window decoration in the house at Brighton recently reconstructed for her by Sir Edwin Lutyens. Lady Sackville, whose hobby for objets d'art amounts almost to a cult, has had glass shelves fitted across her windows, on which specimens of her wonderful collection are displayed. The effect against the light is decidedly original.

The student who has the pluck and the ambition to add hours of study to a hard day's work merits assistance and encouragement.

BIG DRILL TEAM OF ELKS TO BE FORMED

One hundred or more Elks dressed in natty white uniforms and executing military evolutions with precision that will mark them as a high class drill team—this was being visioned today by members of Santa Ana Lodge No. 794, B. P. O. E.

The ball was started rolling last night at a meeting of the lodge. A number of service men were appointed as a committee to develop the team. There will be no limit as to the number of members.

Charles D. Swanner is chairman of the committee and associated with him are Ben Patton, J. E. Livesey, Jr., Nelson Edgar, Don Andrews, Tom Willis and F. H. Taylor.

While the character of uniforms to be worn was not definitely decided, it was stated today that in all probability white uniforms would be adopted as the official garb for the team.

The team is expected to bring the local lodge into considerable prominence wherever large gatherings of Elks are held. It is proposed that it participate in state meetings of the lodge where parades are a feature and it is possible the team will be called into activity in local celebrations.

Dr. H. N. Brothers was initiated last night and following the meeting lunch was served in the basement banquet hall.

Mexico will never get anywhere until she drops the first letter from revolution.

GEORGIA MINSTRELS MAKE HIT AT YOST

The famous Georgia Minstrels were in town yesterday and last night. Their performance at the Yost theater in the evening proved a winner. Particularly effective was their big, old-time minstrel first part. The singing, dancing and comedy in the colored entertainers in this opening part of the program was exceedingly clever. Round after round of applause greeted the various numbers given. The theater was packed, not even standing room being available after the curtain went up.

AERIAL DARE-DEVILS TO STAGE AIR CIRCUS

An aerial circus is to be put on Saturday and Sunday afternoons by the two Bluebird airplanes now operating in Santa Ana. Pilot "Monte" Montijo of the yellow ship was formerly an army aerial acrobatic instructor and has a repertoire of stunts calculated to thrill the most hardened.

Wing walking by N. H. Langley, pilot of the blue ship, will be another feature of the circus, and acrobatics will be illustrated by Montijo. A sham battle will also be staged over the local field with Langley in the part of the attacker and Montijo as the victim. Various methods of attack and escape will be illustrated.

LOCAL P. E. OFFICER ORDERED TO REPEAL

The P. E. officer of the local chapter of the P. E. O. was ordered to repeal his order of initiation of a new member. The order was issued as an expression of the views of the chapter.

TI-VIVISECTION AND AN-NATION

and serum for immunization of dogs against hog cholera. And if this proposition became a law, it would preclude the use of the guinea pig which is absolutely necessary to the making of the Wassermann test for syphilis; also experiments upon fleas, ground squirrels and rats which experiments are necessary for the determination of the existence and proper treatment of bubonic plague, which is not infrequently introduced to our harbor; the use of certain birds which is necessary for the determination of the existence of carbon monoxide, gas (damps) in mines; also it would preclude the use of birds to determine the nature of poisonous gases used in times of war and for the discovery of substances to counteract the deadly effects of gasses used by the enemy army; it would preclude the production of the serum for the cure of cholera in hog; and it would render impossible the certification of milk by the public authorities, the test of cows for tuberculosis being prevented.

I bring these matters to your attention for the sole reason that by these propositions a concerted attack is made upon the public health and if they become a law would be a staggering blow to the institutions and seriously hamper the governmental officers whose function it is to preserve the health of citizens, to prevent or eradicate epidemics of contagious diseases, to protect the flocks and herds of the husbandman and the fruit trees and crops of our horticulturists and to save the grain, grasses and other products of our farmers from destruction.

The proposed measures are, it seems to me, a very serious menace to the health and to the industries and enterprises of our citizens.

So important are these matters that I think your organization may well declare itself as opposed thereto.

Respectfully,

(Signed) WALTER BORDWELL

*Walter Bordwell was for many years a Judge of the Superior court of Los Angeles.

MAN WINS \$900 IN BEAN PUMP ACTION

Judgment has been given Lee C. Deming to the amount of \$900 with interest and costs, against the Bean Spray Pump company, of Los Angeles, in the court of Superior Judge R. Y. Williams.

It appeared that in 1917 the company sold Deming a tractor for \$1,178, which it guaranteed was in good condition and suitable for Deming's work. Deming alleged he found that the tractor was not satisfactory, and would not do the work. He communicated with the company, it was said, which agreed to take back the tractor and pay him \$900 as a reasonable sum for it. He turned over the tractor to them, it was alleged, and although retaining possession of the tractor, the company has never paid the money.

Judgment was given Deming against the company for the amount, with accrued interest since August, 1917, at 7 per cent.

PLAN PLEBISCITE TO DECIDE VILNA FIGHT

BRUSSELS, Oct. 27.—The league of nations councilors here have virtually decided on a plebiscite to determine whether the city of Vilna shall be Polish or Lithuanian.

For hours yesterday the council heard representatives of the two nations.

Later the councilors met secretly and decided a plebiscite would be the best method of determining the disposition of the Lithuanian city which has been seized by Polish regulars.

MAN WINS \$900 IN BEAN PUMP ACTION

Judgment has been given Lee C. Deming to the amount of \$900 with interest and costs, against the Bean Spray Pump company, of Los Angeles, in the court of Superior Judge R. Y. Williams.

It appeared that in 1917 the company sold Deming a tractor for \$1,178, which it guaranteed was in good condition and suitable for Deming's work. Deming alleged he found that the tractor was not satisfactory, and would not do the work. He communicated with the company, it was said, which agreed to take back the tractor and pay him \$900 as a reasonable sum for it. He turned over the tractor to them, it was alleged, and although retaining possession of the tractor, the company has never paid the money.

Judgment was given Deming against the company for the amount, with accrued interest since August, 1917, at 7 per cent.

PLAN PLEBISCITE TO DECIDE VILNA FIGHT

BRUSSELS, Oct. 27.—The league of nations councilors here have virtually decided on a plebiscite to determine whether the city of Vilna shall be Polish or Lithuanian.

For hours yesterday the council heard representatives of the two nations.

Later the councilors met secretly and decided a plebiscite would be the best method of determining the disposition of the Lithuanian city which has been seized by Polish regulars.

FOLLOW THE CROWD—WH

JUNIOR COLLEGE GRID MEN RAM ORANGE, 19-0

The Santa Ana Junior college football team went over to Orange last evening and ran the citrus men off their feet by a score of 19 to 0. If full 15 minute quarters had been played instead of 7-minute quarters, it is hard telling what the final score would have been.

All the Junior college back field men showed themselves to be good ground winners. Jerome, at quarter, displayed a lack of dodging through the foe's line for gains of from a few yards up to 25. The Orange men found Don Jayne a fast and slippery customer, as they had a great deal of trouble in laying their hands on him.

Tyrell proved to be a hard hitting fullback and also got away for some good open field runs. Kellogg filled the right half position in great style, hitting the line hard and low and getting into every play.

On the line Wolf is turning out to be a star tackle. Very few yards are made through his side of the line. He has a habit of breaking through the opponents' line and breaking up plays before they get started. Severance is making a center that is a value to the team. For a man who has never played the game before he is putting out an excellent brand of football. Shark at left end is a man who knows the game well. He is fast and brakes up many of the opponents' plays.

Puts Up Stiff Fight.
Orange put up a plucky fight throughout the game, but was simply up against a better team. Chandler, right half, was about the only man who could make yards at all. On several occasions he got through the Santa Ana line for good gains.

The game opened by Orange kicking off. Tyrell ran the ball back to Santa Ana's 35-yard line. By line bucks and end runs the ball was worked up to Orange's 30 yard line where Tyrell fumbled and the ball went to Orange. Orange was immediately forced to punt, as was Santa Ana in return. With the ball again in Orange's hands on its 30 yard line, Tyrell intercepted a pass and ran 40 yards for a touchdown, where the quarter ended. Tyrell failed to kick goal.

Orange again kicked off to Santa Ana. Orange held and Santa Ana punted to mid-field. Chandler ran the ball up 15 yards and then Orange punted to Santa Ana's 20-yard line. In a series of plays Jerome and Jayne rushed the ball to Orange's 30-yard line, where Cole completed a pass from Tyrell and made a touchdown.

Santa Ana just had time to kick off when the half ended.

Santa Ana kicked off at the beginning of the second half and Orange punted back to Santa Ana's 45-yard line. The ball was run up to Orange's 15-yard line where Jayne fumbled on the goal line after a 15-yard run, an Orange man covering it. The ball changed hands several times finally, ending up on Orange's 15-yard line, where Tyrell made a 15-yard run for the last touchdown. Cole kicked goal.

The line-up:
Santa Ana Orange
Sharp E. Durban
Wolff L. T. Showalter
Price L. G. Tardier
Severance C. Hessel
Cain F. G. Stevens
Dungan F. L. Besgaze
Nichols F. C. Everett
Pich Cole
Jerome J. Robinson
Jayne L. H. Chandler
Tyrell F. Campbell
Kellogg R. H. W. Thompson

ASPIRIN

Name "Bayer" on Genuine

It's criminal to take a chance on any substitute for "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoacetic acid ester of Salicylic acid.

Ministers Launch Plan To Get In Touch With Newcomers In S. A.

Plans for a method to keep in touch with newcomers in Santa Ana and to learn their church preferences and interests were in process of formation today, following a meeting of the Ministerial Union. The method to be followed in this work will be the distribution of cards to the various real estate men of the city. Answers to questions appearing on these cards will give the desired information. The co-operation of the real estate men is being solicited.

Thanksgiving services in the city were also discussed at the meeting and plans made for arrangements of a program for the churches of the city on that day. A committee was appointed to look into the matter of a recreation center for the young men of the city. This matter, after discussion by the ministers, was left open, pending the report of the committee.

McFADDEN BILL IS HELD MINING BOON

"If the McFadden bill establishing a price of \$30.67 an ounce for gold sold to commercial users is not passed by the next session of the national congress, many mines are going to be forced out of operation."

This is the declaration of W. I. Stewart, secretary of the H. H. Kelley Gold Mining Corporation, who has just returned from the company's mine near Quincy, Cal. H. H. Kelley and his two sons, Joe and Percy; S. B. Decker and Stewart have returned home for the winter, as operation of the mine through the winter is impossible because of the heavy snowfall.

The company is financed almost exclusively by Santa Ana men. The group just returning has been at the mine for the past four or five months, installing new equipment and making improvements that will make it possible for active work in ore development next summer.

Several thousand dollars has been spent during the past summer in preparation for next summer's work and the plant has better working equipment than ever before. No attempt has been made to get ore out of the mine for the past two or three years.

"The ore in our mine runs about \$10 per ton under present selling price of gold," said Stewart, in discussing the mining proposition. "The government controls gold at an established price of \$20.67. Low-grade ores cannot be successfully mined at present mining costs and at the prevailing quotation for gold."

"The McFadden bill proposes a price of \$30.67 per ounce for such of the precious mineral as may be used in a commercial way and adoption of the measure will revive gold mining operations and save many mines from being closed down."

ZAISER AND FINLEY L. A. COUNTY GUESTS

At the invitation of the county of Los Angeles, Dr. Harry Zaiser, head of the Orange County Hospital, and Col. S. H. Finley, of the board of supervisors, today drove to San Fernando, where they inspected the new Olive View Sanitarium for tubercular patients, recently completed by Los Angeles county.

This sanitarium is said to be the last word in the treatment of tubercular patients. On their way back they were taken by their hosts through the El Retiro School for Girls. This is another Los Angeles county institution which has made an exceptionally fine record.

URGE SURVEY OF CAL. WATER SUPPLY

SAN FRANCISCO, Oct. 27.—Pointing out that California will not reach the peak of development unless its natural resources are carefully fostered and utilized, the state railroad commission today in its annual report transmitted to Governor Stephens, urges a survey of the state's water and power resources.

The report recalls that California recently was "confronted with a situation which threatened the very core of its prosperity."

"We are of the opinion that in no other way can the great resources of our state be developed or its full possibilities realized than through the conservation and proper distribution of water—its most valuable crop."

Attention is called to the fact that statistics show less than half of the total area of arable lands susceptible of irrigation has an available water supply.

"Any halt in the state's hydro-electric development," the commission informs the governor, will spell disaster. The commission says the state's paramount need is cheap power.

"The water shortage," asserts the commission on this point, "was responsible for an enormous increase in oil consumption, the diminished supply demanding more steam-made electricity. So great was the oil consumption that a new record was established. It was estimated 6,000,000 barrels of oil will be used in 1920 as against an average consumption in normal years of about 5,000,000 barrels."

Discussing the problem confronting the electric railway system of the state, the commission declares it is apparent the time is by no means here when cities and rural territories can dispense with electric railway facilities. The automobile stage, the jitney and the privately owned automobile are not a substitute for the street railway or the electric interurban railway, says the commission.

You'll save money in Leipsics Dollar Day Sales. See the big ad in this paper.

NIGHT SCHOOL AT O. C. BUS. COLLEGE.

COLORADO MINERS IN STRIKE THREAT

DENVER, Colo., Oct. 27.—Twenty-five hundred coal miners of the northern Colorado fields will go out on strike tomorrow and remain out "until operators agree to a conference" on their demands for a working agreement and wage adjustment was the announcement made today by officials of the United Mine Workers of America following a meeting of miners last night when it was voted three to one to walk out.

Officials of the state industrial commission declared such a walk-out would be a violation of the law.

Consistency.

"She makes herself ridiculous with her silly superstitions. Do you know, she looks in a dream book every morning as soon as she gets up. No, don't go out of that door."

"But it is the shortest way out."

"But don't you know it is bad luck not to go out the same way you came in?"

TRADES ASSOCIATION FORMATION DEFERRED

Because of the absence of a majority of the members of the committee recently appointed by trades unions to frame by-laws, a meeting scheduled for last night was not held.

An association of unions has not been effected as yet, the matter still being in the preliminary stages.

No definite date has been set for another meeting of the men who have been charged with the responsibility of forming a charter that will carry the unions into an association and provide rules and regulations for its operation.

"I do not know when the committee will meet," declared a member this morning. "We will let things take their course."

If you are wanting a good winter suit see the wonderful suit values offered at Leipsics.

EXPERT TO SUGGEST LAW ON FERTILIZER

George B. Gray, chief chemist of the state bureau of fertilizer control, is to be in Santa Ana tomorrow morning at 10 o'clock to advise the local Farm Bureau fertilizer committee with regard to a law which it is proposed to seek, regulating the sale of fertilizer in California.

Professor W. B. Kelly, chemist of the Citrus Experiment station, Riverside, who was also scheduled to be here, will be unable to attend, according to information received here today.

The fertilizer question is one in which there is widespread interest in the county at this time.

VOTE NO on NO. 7

METHODISTS DEFEAT EVANGELICAL TEAM

Evangelical indoor baseball players were inclined to worry today as a result of the beating they received at the hands of the team from the First Methodist church last night.

The Methodists were champions of the first series and the Evangelicals are in the last lap of the championship race for second series honors. The Evangelicals are scheduled to meet the United Presbyterians for final honors next week.

The game last night was merely a practice affair for both teams but the score of 42 to 16 would indicate that someone was working. If the Evangelicals beat the U. P. team the championship will revert automatically to the Methodists, but if the United Presbyterian players win out they will have to play the Methodists to decide the final inter-series championship.

WIL LSELL FLEET

PARIS, Oct. 27.—The cabinet has decided to sell the merchant marine fleet operated by the various ministries. The fleet totals about 800,000 tons.

CHIROPRACTIC PRIZE CONTEST LETTERS

Lancaster, Cal., October 19, 1920.

Dear Sirs:

In entering your contest, I will say I registered January 8, 1920 in Precinct No. 2.

I shall vote "Yes" on the Chiropractic initiative measure because of the evidence disclosed by Uncle Sam, showing that Chiropractic did so much better than the medical men during the "flu" epidemic.

It is just terrible that Chiropractors are not allowed to do adjusting freely, and I hope that my vote will help to give them permission to fight that terrible disease ("flu") after making such a splendid showing.

So in addition to myself voting "yes" on No. 5, I am continually talking to others to vote the same. With wishes that No. 5 wins, I am sincerely yours,

MRS. FRANCES T. JANOURIZC.

VOTE "YES" ON NO. 5 CHIROPRACTIC BILL

JEROME CALCULATES PROPOSED TAX JUMP

County Auditor William C. Jerome, who was requested by the board of supervisors to submit to it the amount of the tax increase which would be laid upon the county by Amendments Nos. 12 and 16, filed with them the following report:

"To the Honorable Board of Supervisors of Orange County:
In accordance with your request for a statement as to what affect the passage of Constitutional Amendments Numbers 12 and 16 would have upon future tax rates and taxes of the county of Orange, I submit the following figures:
Amendment No. 12 provides for an ad valorem tax of 12 cents on each \$100 of non-operative property.

"This means the taking of the entire burden from the state and placing it on the county and would add 12 cents to our county rate.

"Based on our taxes on our present valuation, it would mean an additional tax burden on Orange county of \$124,265.

"Taking for granted that the state will still do its part toward paying the amounts allowed in Amendment No. 16 and that our school boards will spend no more money than at present and that only the additional \$12.50 per pupil will have to be raised by the counties, this amendment will increase our rate nearly 4 cents per \$100, or \$40,000.

"This entire amount will be spent outside of Orange county in the relief of less fortunate counties.

"The two amendments would increase our tax rate at least 16 cents per \$100, and our taxes \$160,000.

"Respectfully submitted,
"W. M. C. JEROME."

MEXICAN EXECUTED FOR TRIPLE MURDER

BISBEE, Ariz., Oct. 27.—Walter Frohman, superintendent of a mining company of Sonora, Mex., brought word here that Manuel Garcia, former presidente municipal of the Altar district, had been executed by Mexican soldiers Monday night, following a drunken spree, during which he nailed his two children alive to a fence, and strangled his wife to death. Upon discovery of the crime, the military commander at Altar ordered Garcia's arrest, shortly after which he was executed.

\$150,000 THEATER.
LONG BEACH, Oct. 27.—A \$150,000 theater building will be erected at Anaheim street and Elm avenue, thirteen blocks from the ocean front, by W. J. Johnson and son, Herbert C. Johnson, who have purchased a site there for \$22,000. The younger Mr. Johnson who has been managing a Hollywood theater which he and his father owned, will be manager of the Anaheim street house.

Fred Allen Probation Violation Case To Be Heard on Friday

Fred Allen, held in the county jail on a battery charge of having, it is alleged, attacked his wife on a street corner at Fullerton, knocked her down and kicked her while she had her 2-year-old child in her arms, was brought before Judge Z. B. West and charged with having broken the probation given him a short time ago by the court after he had pleaded guilty to a felony.

Allen had been charged with having removed and sold some furniture from a rented house in Yorba Linda. He was given probation principally on account of his wife and children. It is alleged that Allen's attack took place after Mrs. Allen had started action to get a divorce on the ground that her husband was convicted of a felony.

H. D. Thurber, who previously appeared as Allen's attorney, is now appearing as Mrs. Allen's attorney in her divorce case.

Judge West appointed Attorney D. G. Wettlin, of Orange, to look after Allen's interests, and set the hearing for next Friday, at 9 a. m.

ACCUSED IN WALNUT THEFT CASE FREED

Antonia Madera, arrested on October 8 on a grand larceny charge of having stolen six sacks of walnuts valued at \$66 from A. T. Colbert, was at liberty today, following his preliminary examination in the court of Justice John B. Cox. The court ruled that there was insufficient evidence to hold Madera to answer to the charge in the Superior court.

Colbert was unable positively to identify the walnuts, although he stated that the sacks were his. Furthermore, it came out in the testimony that only two sacks of walnuts had actually been missed by Colbert.

The fact that the offense had been committed could not be definitely established. Hence Madera was released, and the walnuts, which he claimed to have bought, were returned to him. He had previously been out on \$300 bail.

SEEKS DIVORCE.

A complaint asking for a divorce has been filed by Mrs. Nellie Ethelyn Wees of Laguna against her husband, Claude Vinton Wees. It is understood that the divorce is to be asked for on the grounds of cruelty and an ungovernable temper. The Weeses have one child.

Big opportunities are offered in Leipsics Dollar Day Sales, Thursday, Friday and Saturday.

WHITESSELL JURY IS UNABLE TO AGREE

After remaining out for four hours, the jury sitting in the case of Charles Whitesell, formerly of Garden Grove, and charged with assault upon his wife with a deadly weapon with intent to commit murder, was unable to agree, and was finally dismissed by Judge Z. B. West.

According to reports, the vote throughout the entire balloting of the jury stood 9 for acquittal, and 3 for conviction. It is also understood that the three who stood firmly for conviction were men, the four women on the jury being for acquittal. The three men in question, it is stated, would have been willing to have returned a compromise verdict of "guilty of assault with a deadly weapon," which is not a felony, but a high misdemeanor, whereas, "assault with a deadly weapon with intent to commit murder" is classed as a felony.

A misdemeanor would have meant that Whitesell would have been confined in the county jail if found guilty. If "sent up" on a felony, he would have gone to San Quentin, had probation not been granted him.

However, no compromise was reached because certain of the jurors stood firmly for acquittal. It could not be learned today whether the District Attorney's office intended to press the case and proceed to a new trial. Whitesell is still at liberty on bail.

'MAYFLOWER' WRECKED DURING ENGLISH PLAY

LONDON, Oct. 27.—During the period of the celebrations of the Pilgrim tercentenary there was produced at the Surrey theater "The Mayflower," a play of the Pilgrim Fathers. The Mayflower, an enormous "property" vessel, was about to sail for New England from Plymouth when she collapsed sideways and precipitated all her crew and passengers on the stage.

The crash was tremendous, and the audience held its breath as the curtain fell on the Pilgrim Fathers falling heels over head toward the footlights. Laughter loud and long greeted the opening sentence of the next act: "God hath brought us safely across the ocean."

FACTORY SEEKS LOCATION

LONG BEACH, Oct. 27.—A. L. Johnson of Shreveport, La., arrived in Long Beach and is at the Hotel Virginia. He represents the Mansfield Hardwood Lumber Company of Shreveport and is looking over Pacific Coast sites for a finishing plant for his concern. He has been in the north and for the past few days has been inspecting possible sites at San Pedro, Wilmington and Burbank.

POMONA, Oct. 27.—Ten months to a day from the time that his home at 380 San Francisco street was entered and ransacked, Bertram Fich received notice from the Los Angeles Police Department that the watch that made up part of the loot stolen last year had been found in a pawnshop in that city. Mr. Fich hastened to Los Angeles, and, armed with an order from the police, visited the pawnshop at Fifth and Main streets and recovered his property.

SILT IN HARBOR HAS COST A HALF-MILLION

LONG BEACH, Oct. 27.—More than one and one-half million dollars have been spent by the county in the Long Beach district to protect the twin harbor against silting, says supervisor R. F. McClellan. This sum does not include the expenditures of the federal government in dredging the diversion channel itself, nor does it take into account the large sums that must still be paid out for the completion of bridges.

The sum of \$1,120,000 has been paid for right-of-way and nearly all of the remainder for bridges. "The greatest single undertaking by the Los Angeles county flood control district was the joint undertaking with the government for the construction of the flood control channel from Cerritos trestle to the Pacific ocean," says McClellan. "This channel, now in the course of completion, will serve to convey the flood waters of the Rio Hondo and Los Angeles rivers directly to the ocean, preventing them from flowing, as they have done in previous years, into the harbors of the city and Los Angeles and the city of Long Beach."

SHOOTS INSTRUCTOR FOR SCOLDING SON

CHICAGO, Oct. 27.—Mrs. Carmelita Rindoni shot Miss Rosalind Reynolds, a school teacher, twice because Miss Reynolds had reprimanded Mrs. Rindoni's 10-year-old son, Herman. Miss Reynolds is in a hospital where her condition is not considered critical. Police have been unable to find Mrs. Rindoni, but Herman has been placed in the detention home.

Herman was said by school officials to have played truant frequently and was reprimanded several times.

This morning Mrs. Rindoni entered the school room.

"Is that your teacher, Herman?" she asked.

"Si, mother," he is said to have replied.

Mrs. Rindoni drew a revolver, fired twice and fled.

GROVE DRAINAGE DISTRICT PLAN GIVEN BLOW BY VOTERS

Havoc Raised as Tax Bills Are Received; Proposal Is Defeated

2400 ACRES INVOLVED

Legislature Will Be Asked to Pass New Bill Governing Ditch Areas

Receipt of county tax bills a day or two before the election held at Garden Grove Monday to vote on the proposition of bonds for the Garden Grove Drainage district raised havoc with the project and the issue was overwhelmingly defeated. Drainage of the district is a dead issue so far as bonds are concerned.

In proceedings preliminary to the voting of bonds an indebtedness amounting to approximately \$7300 was incurred. A tax levy to cover this was included in the tax bill and was said to have disclosed to owners that the lands least benefited by the drainage would bear the major portion of the expense.

The expense charged up against the higher priced lands runs from \$10 to \$13 per acre, while the charge against lands in the heavy alkali districts, which would be the most benefited, was little or nothing. The difference came in the assessed valuation of the two classes of property.

With this discovery, owners of the higher priced lands within the district got busy Monday morning, the day of the election, and succeeded in defeating the \$100,000 bond issue.

Explains Status. Had the project been carried through, the citrus and other improved lands would have been charged up with from \$100 to \$200 per acre more than the lands to receive the greatest benefit under drainage, according to the statement of a Garden Grove man today.

The district as organized included about 2400 acres and one of the best and most thorough drainage systems in the state was proposed, tiling to be laid underground altogether.

Prof. W. W. Weir, drainage engineer of the soils department of the University of California, has been directed by the district to outline a bill for presentation to the coming state legislature providing for the organization of drainage districts that will permit assessments according to benefit derived rather

Potato Growers Are to Join in Excursion In L. A. County Nov. 4

Potato growers of Orange county have been invited to join in an excursion of potato growers through Los Angeles county on November 4, according to an announcement made today by Farm Adviser H. E. Wahlberg. Those who desire to participate are advised to let the farm advisers know at once and to report at the bureau office at 3 o'clock on the morning of Nov. 4. The itinerary is not known at this time. It is announced that potato experts will be present and will discuss diseases of the tuber as well as market conditions. The excursion will mark the fourth annual meeting of the Potato Growers' Association of Los Angeles county.

IMPERIAL MAN HAS NOVEL MILKING SHED

Imperial valley reports that William Paine of El Centro, has a novel type of milking shed, which is arousing the interest of various inspectors and others who have seen it.

Paine has a herd of some sixty or seventy cows. His milking shed, however, is equipped with a milking machine and consists of only six stalls. The cows enter the stalls, and after being milked, pass on through doors in the front of the stalls which are released by means of a lever from the rear. Other cows awaiting their turn take their places so that there is no loss of time. They are milked by machine directly into pails which transfer the milk directly to the receiver in the milk house.

Paine has been using this system for 6 months or a year and reports that the cows are readily trained to follow each other into the stalls and that he is well pleased with the plan.

While this system is a novelty in this state, it appears that it is by no means a novelty in other countries. Information is that a man in New Zealand devised it some twenty years ago, and that now it is in very common use in both Australia and New Zealand. In fact, it is reported that practically all the milking sheds of New Zealand are of this type and that they are adapted both for machine and hand milking. Because of the similarity of conditions there and here it is thought by those who have imported the idea that the plan is suitable for California.

NATION'S BEAN CROP LESS, REPORT SHOWS

The nation's crop of beans will be 2,000,000 bushels of eighteen per cent less than last year and almost three-fourths of this decrease is credited to California by Federal authorities.

The continued low price of beans, due to Oriental imports, caused a large reduction in acreage this year and this was followed in California by an unfavorable growing season, which materially reduced yields.

BIG DAIRY HERD RAISE GRADE OF CONTEST UNDER 1920 SEASIDE LIMA BEANS WAY IN CAL.

College of Agriculture of U. C. Conducts Butterfat Competition Statement Setting Standards Issued by Growers Association

The college of agriculture of the University of California will conduct a competition for dairy herds during the coming year in connection with the official testing of dairy cows for production of butterfat, in which work the College has been engaged for many years past. The object of the competition is to improve the production of the dairy cows of the state by creating a general interest in production tests among dairy farmers and by the adoption of modern methods of dairying in grade or common herds as well as in purebred herds.

The competition has been rendered possible through the hearty co-operation of breeders of purebred dairy cattle and business firms interested in the advancement of the dairy industry who have subscribed a fund of more than \$3,325 for the award of prizes for records of production made by cows in the competition. A number of special prizes of purebred bull calves and trophies have likewise been donated in order to make the competition of general interest to dairy farmers and to insure a large participation.

System Outlined. The production of milk and butterfat by the cows in the competition will be determined by the system of semi-official testing of dairy cows. Supervisors of the dairy tests employed by the college will each month make two day tests of the cows entered and certify to their production of milk and butterfat for this period. In the case of grade herds, tests of one day's duration only are required. Tests for members of cow testing associations are made by the association tester, except twice during the record period, when supervisors of dairy tests regularly employed by the College will conduct the tests.

There are approximately 125 owners of dairy cows, in Orange county. Judging from the monthly production records of several of the dairies in the county, there is no reason why Orange county cow owners should not come in this competition for several of the prizes, says a farm bureau statement. At present there is being compiled a register for grade cows. Grade records made in the contest will be officially recorded in the register.

The competition began on Sept. 1, and will close Jan. 31, 1921. Entries will close April 1, 1921. Entry blanks and further information concerning the competition may be obtained at Orange county farm bureau office.

The most for the money in our line of robes. Wm. F. Lutz Co.

FOUR STAGE BEAUTIES WORK FOR G. O. P. CANDIDATES IN ELECTION

Among the stage folks who are to be found in the ranks of the Harding and Coolidge backers are four of the leading beauties of the stage—Blanche Ring, Florence Reed, Marjorie Rambeau and Lillian Russell. All are vice-presidents of The Actors' Republican League which is working earnestly and vigorously in behalf of the Republican candidates.

SECOND ANNUAL INSTITUTE OF FARM BUREAU IS LAUNCHED AT ANAHEIM

Citrus Men Gather to See Practical Demonstrations by Experts

TO LAST THREE DAYS

Well Known Citricultural Men Give Lectures On Various Topics

The second annual Farm Bureau Institute of practical lectures dealing with the problems of the soil and tree, opened at Anaheim today. The meeting started with demonstrations showing the best practices of the art of pruning orange and lemon trees.

Tomorrow morning will be devoted to methods of killing insect pests, such as scales, red spider and aphids. H. S. Woglum, fumigation expert of the California Fruit exchange, who has done much for the advance of fumigation science in Southern California, will discuss the principles of fumigation, explain reasons for fumigation injuries and tell how to avoid them. Citrus aphid and red spider control will be demonstrated by Prof. R. E. Smith.

Tomorrow afternoon, Dr. I. G. McBeth will discuss the use of fertilizers and cover crops and their relation to permanent soil fertility. Prof. George P. Gray has consented to come from Sacramento to tell the citrus growers about the "Standardization of Barnyard Manures." A. E. Barnes, in charge of the fertilizer department of the Fruit exchange has studied the problem of fertilizer supplies from every angle and will tell what he knows about the "Future Supply of Organic Manures."

Tractor Demonstration. Friday morning tractor men will be present to hear the discussion on "The Tractor vs. the Horse." The comparative costs of operation will be shown by Prof. R. S. Valle of the Citrus Experiment station and Dr. D. S. Fox of San Bernardino. Prof. Valle will also give some pertinent figures on the cost of producing oranges.

The last but one of the most important demonstrations will be the "Treatment of Citrus Diseases" by Dr. H. S. Fawcett and Dr. J. T. Barrett of the Citrus Experiment station. Scaly bark, gummosis, root rot and fumigation injuries will be taken up. Citrus blast, of which much has been heard will receive some attention in order that local growers may be shown a dangerous disease that should be kept out. Groves of Northern California are now infected with this disease. It has not as yet been introduced to Southern California but growers should be able to identify it and report if recognized.

The morning sessions begin at 10 o'clock and the afternoon meetings at 2 o'clock. The lectures and demonstrations are being held at W. R. Ward's ranch, East Center and Placentia avenue, Anaheim, about two miles east of the center of town.

WORLD'S OUTPUT OF SUGAR NEAR NORMAL, WORD

Sugar beet growers in California are concerned regarding the sugar outlook in Europe, especially as concerns the output of the late "Central Powers."

The American Farm Bureau Federation reports: "The present beet harvest in Germany and other European countries will yield 3,870,000 long tons, as compared to 2,676,000 tons last year. The yearly average for five crops in these countries ending in 1914 was 7,408,000 long tons.

"Meager information from Austria and Hungary points indicates yields about the same as last year, while Czechoslovakia, which now possesses most of the factories formerly of Austria-Hungary, is expected to produce 800,000 tons, against 535,000 tons last year.

"Willett and Gray estimate German production at 1,300,000 tons, as compared to 750,000 tons last year. Shortage of coal in Germany threatens, however, a full operation of factories there. Under best figures now available, Germany has only one-half of its pre-war production.

"The Cuban season just closed with a production of 3,570,000 tons, which was considerably less than expected at the beginning of the season. No great reduction of the Cuban crop is expected in 1921.

"For the season just closed, Willett and Gray estimate a world production of 15,154,000 long tons, or 1,235,000 tons less than 1918-19, and 1,778,000 tons less than the five-year average before the war.

"This shows, then, that Europe will scarcely produce half its pre-war crop of sugar, while Cuba may be expected to have about 50 per cent more than before the war.

"With a crop in the cane countries of the same size as last year, and with European and American beet sugar, as indicated by this year's forecast, we may expect a total world production equal to about what was produced on an average just before the war."

UNIVERSITY IS ASKED TO MAKE MILK STUDY

Detailed analytical studies of the cost of producing milk, such as have been made in Illinois, New York and other states, have been formally asked of the college of agriculture by the associated dairymen of California.

About milk production costs center many arguments between producers and consumers, and it is to clear up these differences that this study is being requested. Since conditions vary widely over small areas, and feed and labor conditions are constantly changing, a formula must be worked out which can be used as a basis for dealing with these shifting factors.

Negotiations have been started with the federal department of agriculture for work of this character in case it cannot be undertaken by the college of agriculture.

COUNTY ORDERS STEAM SHOVEL. VENTURA, Oct. 27.—Instead of renting a steam shovel at \$500 per month, the supervisors have decided to buy a shovel and orders have been placed for one at a cost of \$9,000.

ALFALFA MARKET TONE SHOWING IMPROVEMENT

The Alfalfa Growers' Association of California reports that the tone of the alfalfa market showed a marked improvement this week, the result of a stronger demand on one hand and moderate offerings on the other.

The striking feature of the present situation is the small supplies in the hands of most dealers and users, which is bound to keep them in the market as buyers right along from now on, even if they continue buying from hand to mouth only.

There were approximately 300 tons of hay of all kinds received on the Los Angeles tracks the week ending October 23rd with 200 tons held over as against 700 tons the week before. There were 1347 tons received on the San Francisco tracks.

Southern prices: Fancy dairy alfalfa, \$37; No. 1 dairy alfalfa, \$29; standard dairy, \$25; stock alfalfa, \$22.

FAVOR COMMUNITY CHEST.

PASADENA, Oct. 27.—Tired of ceaseless campaign and drives for this and that charitable or religious purpose, the commercial organizations of this city are taking steps to insist that the community chest idea be adopted here. The matter has been discussed by the Chamber of Commerce, Merchants' Association, Realty Board and Clearing House Association.

BUMPER CROP OF VALENCIAS IN 1921--VALLA

The crop of Valencia oranges now growing on the trees, harvesting of which will commence about May 1, will be from 15 to 20 per cent greater than the crop just harvested, in the opinion of L. B. Valla, district commercial agent for the Southern Pacific.

Valla returned only recently from a six months' tour of Europe, and is getting right back into harness with the vim that has always characterized his efforts in behalf of his company.

"The crop is setting well, and if the elements do not change the situation before the time of harvesting, Orange county will gather the greatest Valencia crop in its history," declared Valla today. "The stand on the old trees is heavier and there are many acres of new orchards that will come into bearing this season. I have just completed a superficial survey of the district, and I

Preparing for one hundred and twenty million meals with Karo Maple for 1921

Last year American housewives bought over five million cans of Karo Maple. Delicious flavor, moderate price and wise buying.

Do you know that the makers of Karo Maple are the world's largest users of the purest and best flavored maple sugar?

That over a thousand tons of maple sugar from the finest maple groves in Vermont and Canada are used each year to make Karo Maple?

Karo Maple is pure and wholesome—its flavor is not an imitation.

Yet the price is so moderate that you can afford to serve it at every meal.

Try it just once, on some nice hot waffles, or brown pancakes. Or as a spread for bread or crisp toast.

If Karo Maple isn't the most satisfying syrup you ever tasted, at the most satisfying price you ever paid for a similar syrup, return the balance of the can and the grocer will refund your money.

DO CHURCHES HOLD OWN WITH MOVIES

Are there more motion picture fans in Santa Ana than there are churches?

At first glance it would seem so. Conservative estimates as to the average number of persons who go to church each Sunday in the city place the figure at from 3500 to 4000. A like number attend the movies during a period of a week, according to equally conservative estimates. Those making up this number are counted only once. However, it is pointed out that the movies may be more popular than the churches, if it is taken into consideration that motion picture fans and fansessee, some of them, go to their favorite theater two and three times a week. On the other hand, sermons are delivered at churches only on Sundays, and mid-week prayer meetings do not attract a sufficient number to "cut any figure" in connection with comparing the popularity of the churches, as against the movies.

The figures pertaining to the weekly attendance at churches were approximately by Rev. John Oliver, pastor of the First Methodist church. Estimates on the number of movie fans in Santa Ana were reached by E. D. Yost, lessee of The Yost, Temple and West End theaters.

Rev. Oliver estimates that he preaches, during his two sermons each Sunday, to an average of 700 people. He believes there are two other churches in the city where the attendance is equally as large. It is upon these figures and upon estimates of attendance at smaller churches that he bases his statement that the average weekly attendance at the churches of the city is between 3500 and 4000. Yost, who, by reason of his control of three theaters here, is in position to arrive at fairly accurate estimates, bases his figures of an average weekly attendance of 4000 at Santa Ana's motion picture houses, on the fact that "Humoresque" was shown to that number during its recent run here. The attendance at "Humoresque" was exceptional, of course. Yost said. At the same time, he declared, when the business done by all the movie theaters in the city, day in and day out, is taken into consideration 4000 is not far from the mark.

ALLEGHENY COUNTY WORKERS WELL PAID

PITTSBURG, Oct. 27.—The average daily wage of every person employed in Allegheny county, one of the country's greatest industrial centers, increased 70.2 per cent in three years, according to James F. Woodward, State Secretary of Internal Affairs. The per capita daily wage for 1919, was \$5.08, while that of 1916 was \$2.85, Mr. Woodward said. He used the latter year for comparison because he said it was "fairly normal," whereas 1917 and 1918 were abnormal, owing to the war.

Although production valuation during the war years was greater than in 1919, Mr. Woodward's figures showed wages had increased steadily from \$2.85 in 1916 to \$3.53 daily in 1917, and \$4.71 in 1918 to \$5.08 in 1919. Production value in 1919 amounted to \$1,900,226,400, as compared with \$1,619,222,200 in 1916, an increase of 17.3 per cent. In 1917 and 1918, production value reached well over the \$2,000,000,000 mark. The per capita wealth of the county was \$2580, or twelve times the average per capita wealth of the United States.

PILES CURED IN 6 TO 14 DAYS

1920 SEASIDE LIMA GRADE STANDARD UP

(Continued from page nine)

specified shall be considered as of a grade lower than Choice Re-cleaned and be sold on sample.

The Baby Limas
Association Seaside grade of baby limas:

The Association Seaside grade of baby limas shall be of exactly the same specifications as the Seaside grade of regular limas as above outlined, excepting that the warehouses be instructed to use an 18-64th inch screen as the bottom screen in the cleaner instead of a 24-64th inch screen for Seaside regular limas. Should a lot of baby limas contain many small, immature baby limas, then a slightly larger screen may have to be used as the bottom screen.

Association grade of Choice Re-cleaned baby limas shall contain: Not less than 98 per cent (by weight), well screened, edible beans, (including splits, which shall not exceed 2 per cent). Not more than a total of 2 per cent of stained, and/or worm damaged beans, adobe, or other foreign matter.

And in no case more than 1 per cent of adobe or other foreign matter, and no more than 1 per cent of stained or discolored beans, and no more than 1 per cent of worm damaged beans (providing worm damage is only of pod borer type). All percentages to be determined by weight. Warehouses to be instructed to use an 18-64th inch screen as the bottom screen in their cleaner.

GROVE DRAINAGE GIVEN HARD BLOW

(Continued from page nine)

than on the basis of assessed valuation. It is possible that the present district organization will be discontinued and a new organization effected if the legislature passes a bill that will make it possible to assess the benefited lands in proportion to the benefits derived.

DENIES PROMISE OF SHIP MADE TO POPE

NEW YORK, Oct. 27 — James A. Flaherty, supreme knight of the Knights of Columbus, issued a statement denying the statement in the Giornale d'Italia that the order, on the recent pilgrimage of its representatives to Rome, had assured Pope Benedict an American ship should be waiting for his command should grave troubles arise in Italy. "Of course," said Mr. Flaherty, "we could give His Holiness no such assurance on the part of the United States. What we did promise was to aid the head of our church to our utmost ability whenever he might have need of us."

EXPERT TELLS NEED OF TUBERCULIN TEST

Dr. F. G. Whitehead, Veterinary Inspector, Division of Animal Industry, has recently sent out an important report.

Concerning his recently conducted tuberculosis tests in and around Santa Rosa, Doctor Whitehead condemned two cows which had been acted to the test. When he informed the owner of the result of his findings, she began to cry. Thinking that her cause for grief was the loss of the two beasts, he tried to console her with the statement that the animals were diseased and she ought to be glad to know it. Whereupon, she promptly replied: "That isn't what I am crying for. I have a baby nine months old and three months ago the doctor operated upon her for tuberculosis of the hip. As a result my baby is now in a plaster cast." She also said: "I was unable to nurse the baby and consequently it was fed entirely upon the milk from these two cows." It developed that neither parent is tubercular, nor have they ever had tuberculosis in either of their respective families; and neither has the baby ever been away from home.

The above case, says the farm bureau, is only one of the many instances which occur daily through the lack of proper forethought. The time honored adage "And all for the want of a horseshoe nail" might well be made to read, "And all for the lack of a tuberculin test."

VELVET BEAN IS HELD GOOD CATTLE FOOD

The velvet bean is grown very extensively by the farmers of the southern states. It is a splendid food for cows since they relish the seeds, pods, and green vines.

When the beans in the pods are ground, they make a food weighing about 12 pounds per quart. The protein content of the velvet bean is quite high and when the meal is mixed with bran, the ration produces a splendid milk yield. It is rather remarkable the way this plant grows in sections of the South. Some farmers who grow it quite extensively contend it is as good a crop as can be grown for the feeding of dairy cows. They further state that the one great difficulty they experience is the harvesting of the vines which grow so profusely and become so entwined that it is impossible to cut them with any modern machinery. The simple and profitable method as applied in California on various other crops, viz. "hogging them off" could no doubt be applied to the velvet bean in the swine industry, since hogs relish this kind of feed even as much as cattle.

SECOND TEAM MEN READY FOR BATTLES

While the Junior college veterans are battling Chaffee on the local gridiron tomorrow, the second team will be at Orange, meeting a smaller aggregation in a second string league game. With the record they are establishing as ground for the prediction, it appears that the second raters are heading for a state championship in their class.

In a game on the Poly field last week this crew defeated the Orange seconds by a score of 41 to 0. This bunch also has a habit of throwing a scare into the first team every once in a while. Junior college warriors are expected to trample on Chaffee's hopes in the initial contest of the Junior college league on the local Poly field tomorrow. This aggregation is showing up well, and it will take a strong team from the up-country school to put up adequate competition. That this adequate competition will probably be forthcoming is evidenced by the information that Walter Hall, former Santa Ana coach, is acting as mentor for the Chaffee Juniors. It is said Hall has worked up a fighting team and the local boys may have a hard scrap on their hands before they finish tomorrow.

DISCARDS CRUTCHES WITH THIRD DRINK

SAN FRANCISCO, Oct. 27.—The potency and value of moonshine whiskey as a cure for rheumatism was established in the federal court here.

John Martin testified he was on crutches when he first set his hip over a glass of liquid moonlight, but on his third drink he threw away his crutches and was well.

"Hum," commented the judge as he contemplated what one might throw away with four drinks. "What did that stuff cost you?"

WILL DEMONSTRATE TRIMMING DEVICE

Leo Martin, of the Orange County Tire company, today announced that a device for trimming and grooving solid truck tires will be demonstrated at the station of the company, First and Main, tomorrow, from 10 a. m. to 4 p. m. The demonstration will be free to truck owners who want to drive their equipment around to the station for the service.

KEEP CALIFORNIA GREEN

Before you vote on Tuesday next, consider the proposed Alien Land Law in the light of the following facts:

Keen thinkers will discover that
Exclusion of Japanese is not a part of the proposed act.
Existing Calif. laws prohibit land purchase by the Japanese.
Prices of food would go to exorbitant figure.

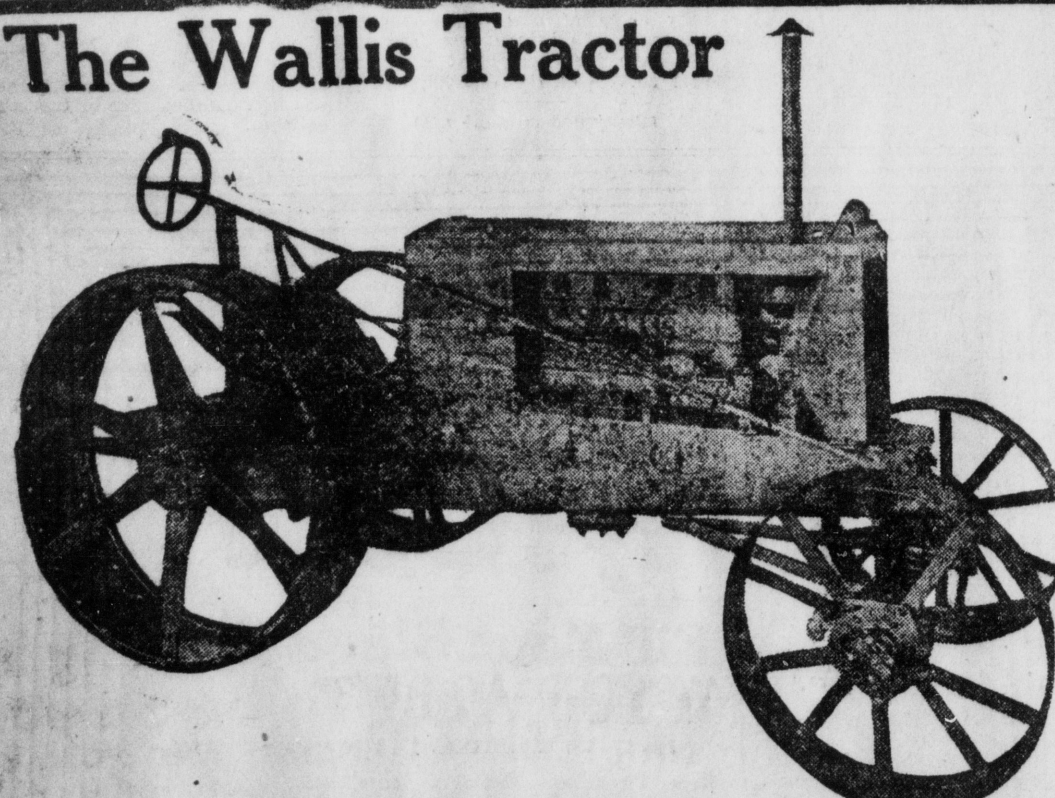

Clear thinking people will vote "NO"
As this law prohibits them to rent their own land as they desire.
Labor will be in competition with Japanese wage earners.
It is cruel, inhumane and unjust,
For it forbids Japanese to rent land; takes away their living.
Of course it will be of benefit to a few selfish politicians.
Racial prejudice is their capital.
No one should follow their advice.
Individual thought should be given to this proposed law.
As it affects the individual.

Great loss of production will surely come to California.
Ranches all over the state would be non-productive.
Each county of California would be affected.
Every family pocket-book would be strained.
Nothing in this proposed law benefits; it remedies no evil.

VOTE "NO"

DEMOCRATIC COLUMN

The Orange County Democratic Central Committee Edits this Column and is Responsible for All Matter Published in It.

Harding Says Vote for Cox

Mr. Chester Rowell, for years the editor and owner of the Fresno Republican, the best informed and best edited newspaper in the State of California, and one of the best in the nation, who sold his paper a few days ago and joined the ranks of Senator Phelan, published the editorial which follows, after Harding's rejection in its entirety of the League of Nations.

Up to the time of this editorial Mr. Rowell had been supporting the Republican ticket, although evidently dissatisfied, as were so many independent thinking Republicans, with Harding's jelly-fish stand. Mr. Rowell has for years been one of the foremost Progressive Republicans in the state. He was on the Republican National Committee in 1912, and bolted with Senator Johnson and Roosevelt. The honesty, fairness, integrity, and fearlessness of the Fresno Republican has never been questioned by friend or foe. It is worth any voter's time to take into consideration Mr. Rowell's conclusions on this all-important subject.

Mr. Rowell joined the ranks of Senator Phelan because he believes it necessary to vote Democratic to have a League of Nations of any sort. Even had the Republican party favored the League, Mr. Rowell stated, even before the August primary, that he would not have supported Samuel Shortridge, who, he says, is a reactionary of the worst type.

Hiram Johnson, James D. Phelan, Francis J. Heney, Rudolph Spreckels, and other public-spirited men fought tooth and nail during the Graft Prosecution in San Francisco in 1907 to convict and send to the penitentiary Abe Reuf, Eugene Schmitz, Patrick Calhoun, and others of the graft ring, and to give San Francisco a clean municipal government.

At the very time that these men, whose politics differed widely, were making this great fight for clean government, Samuel Shortridge, the present reactionary candidate for Senator, was Abe Reuf's attorney, with Abe Reuf's retainer in his pocket, paid by Reuf to him from the money that Reuf had grafted. Reuf was sentenced to San Quentin, and later confessed the truth of the whole graft ring.

HARDING SAYS VOTE FOR COX

(CHESTER H. ROWELL IN THE FRESNO REPUBLICAN)

What you make out of Senator Harding's newest speech on the League of Nations depends on whether you read it simply and straightforwardly or minutely and quibblingly.

If you read it simply and straightforwardly, Senator Harding declares himself an irreconcilable; says he is unconditionally opposed to ratifying the treaty or the covenant in any form, with or without reservations or amendments, and that, in so many words, he invites all persons who favor the League to "vote the Democratic ticket, and pray God to protect you against the consequences of your folly."

If this is what he means—and only a quibbler can find any other meaning than this—then all of us who believe in the League of Nations are requested by Senator Harding to vote for Governor Cox. To refuse this invitation is to accuse Senator Harding of being a subtle and insincere person, whose real meaning must be sought, not in the apparent and simple intent of his blunt words, but in a recondite analysis of concealed phrases, through which it is possible to wriggle to a meaning exactly contrary to the apparent one.

Unfortunately, any attempt at exact reading of the speech is so baffling as to lead almost to this conclusion. Senator Harding nowhere says that he would object to ratifying the covenant, if it were so modified as to remove its objectionable features, or that he would object to acquiring membership in the existing organization of the League of Nations, provided its paper compact could be amended, by the method prescribed therein, so as to remove these features. He does not say that he would do this and he does not say that he would not do it. And yet this is exactly the only question on which any one has the slightest curiosity.

Read with precision, Senator Harding's speech answers every question except the only one which anybody has ever asked. He says he would not favor ratifying the treaty with the covenant exactly as

it is. He says he would not favor ratifying it with the reservations which Cox proposes, because these do not remove the objectionable features. But he does not say that he would or would not favor it with other reservations or amendments which do remove these objectionable features. And he does indignantly deny that we should have to stand hat in hand "in order to become a member of the league." He favors "rejecting" and "keeping out" of the league, and yet denies that there will be any difficulty about our going in. Only he acknowledges that he is not bright enough to show just how we should do whatever we do and promises to call together a group of intelligent men to find out.

So the only question that anybody has ever asked, or cares anything about, is not answered. Exactly and precisely, the whole speech means just nothing at all. We defy any one of accuracy of thought and language to determine from his speech definitely whether President Harding would or would not permit the United States (a President alone can prevent it) to enter the League of Nations now, in operation, provided its covenant were so amended as to remove his present objections to it. Either he is mentally incapable of answering this question directly, or else he is too subtle to do so.

But bluntly and squarely, if we are to take the thing on its face, without seeking excuses in these minutes, the Republican candidate has made the League of Nations the issue, and has invited all who wish the United States to join the league on any terms to vote the Democratic ticket. Not to accept this invitation is to accuse Senator Harding of being a man who either can not say what he means, or else who deliberately makes himself appear to mean one thing when an ingenious enough quibbler can find out that he means the other. Pro-League Republicans must either accept Harding's invitation to vote for Cox, or else support Harding on the ground that they believe that he is an insincere, evasive and quibbling socialist, who does not mean that invitation.

CONDEMNED INDIAN TAKES UP RELIGION

SALEM, Ore., Oct. 27.—Neil Hart, half-breed Indian doomed to hang in the state penitentiary here November 5 for the murder of Sheriff "Tim" Taylor, has taken up religion since being lodged behind the bars.

Hart says he finds solace and consolation in the visits of a clergyman who is permitted to call on him frequently.

Officials assert Hart's attempts to appear unconcerned are pathetic and they expressed a fear he will collapse before his execution.

The state of Oregon is trying to make Hart's last days as pleasant as possible. He is fed fried oysters and roast chicken and cakes and candies. He has flowers in his cell and is provided with cigars, cigarettes and reading matter.

"I'm afraid we'll have to use drugs to give him courage to walk to the scaffold," said Deputy Warden Hawley.

In a jail break last July in which Hart and several others gained liberty, Taylor, Pendleton's picturesque sheriff and idol of the entire state, was shot to death.

MECHANICAL POWER IN HIGH STATE PER ACRE

With forty million dollars invested by California farmers in tractors numbering one for every 700 acres of improved land in this state, with over 33,500 electric motors and 20,000 stationary gas and oil engines used on the farms, the California farmer uses more mechanical power per acre than any other farmer in the United States, it was stated today by L. J. Fletcher, Assistant Professor of Agricultural Engineering at the University Farm.

A two weeks' course in tractor operation may mean the difference between a tractor continually giving trouble and laid up for repairs, and a machine which works day and night without delays. Professor Fletcher said today in comment upon the tractor short courses given by the University of California at Davis and Riverside.

"The manufacturers and dealers in farm machinery and tractors in California co-operate with the Division of Agricultural Engineering of the University to the fullest ex-

tent," Professor Fletcher declared. "At this time lack of sufficient laboratory space prevents the accepting of many loans of important farm machinery and tractors. Tractor users ask questions concerning the efficiency of air cleaners, lubricating oils, the power required to operate various types of tillage machinery. In the majority of cases where the farmer's crops fail due to some cause which could have been prevented, it is due to inability properly to select or operate the equipment."

MRS. THOMAS' WORD TO WOMEN

Tells of the Great Good Lydia E. Pinkham's Vegetable Compound Did For Her.

Morrie, Mich.—"About a year after my second baby was born I suffered with dizziness and nervousness so that I could hardly get around. I had heard from other women about your medicine and had read letters about it, so my husband got me Lydia E. Pinkham's Vegetable Compound which I took according to directions and in a short time I was entirely relieved. I also took the Vegetable Compound before my last baby came and am thankful to say that it relieved my suffering very much and I shall never be without it at such times. I have told others of its great worth and shall keep on telling it."—Mrs. E. THOMAS, Box 184, Morrie, Mich.

Women should not continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can get health in Lydia E. Pinkham's Vegetable Compound. If you would like free confidential advice address Lydia E. Pinkham Medicine Co., Lynn, Mass.

FALLACY OF DEMOCRATIC ARGUMENT SEEKING TO INFLUENCE WOMAN VOTE

Editor Register:—In the Register of Oct. 19th was published a circular letter issued by Orange County Republican Central Committee headed "Why women should vote the Republican ticket." When the light of truth is turned on the statements in that letter, it becomes evident that the heading should have been "Why women should NOT vote the Republican ticket."

Woman Suffrage
The letter first makes an effort to mislead women into the belief that the adoption of the 19th Amendment was due to the Republican party, and states that the amendment was submitted by a Republican congress and that 29 Republican states ratified it and only 7 Democratic states. It happens that a majority of those 29 alleged Republican states have of recent years been voting Democratic and the vote on the amendment in congress was not on party lines at all. Many Republican members opposed and voted against it, and proportionately as many Democrats voted for it as did Republicans.

In fact, woman suffrage never became a party issue, and from a party standpoint the Democrats make much the better showing. President Wilson is the first and only president who voted for and advocated woman suffrage. As to the candidates, Senator Harding never expressed himself in favor of woman suffrage until June, 1919, when the adoption of the amendment had become certain. His attitude was characterized by the National Woman's party as "varied, evasive and non-committal." In June, 1916, when he made the keynote speech at the Republican national convention, he refused to mention suffrage in spite of strong appeals by all the suffragists. In January, 1916, he did not see how he "could vote for suffrage and against prohibition." In August, 1917, he publicly declared that he "could not do anything to support the amendment." In February, 1918, he said that he "deplored the delay in the advance of democracy," and consequently "would hold back on woman suffrage."

In contrast to Harding's record, Governor Cox has for years openly and actively advocated woman suffrage. In 1916, at the Democratic national convention, he announced himself in favor of the national suffrage amendment, and since then has been active in urging its adoption. He used his great influence as governor to secure ratification of the amendment by the Ohio legislature, and his state became fourth on the suffrage roll. As on every public question, there has been no shadow of doubt where Governor Cox stood on the suffrage question.

Women Workers
Next in the letter are some platitudes by Senator Harding about working women and education; just what the inference or conclusion is does not appear. The fact is that a Democratic administration and congress first gave the protection of law for the safety, health and comfort of women and children workers. This was done by the famous General Order No. 13, prescribing hours of labor, rest periods, prohibiting night work, regulating child labor, etc. Also, a permanent woman's bureau was established, which formulated standards for the employment of women in industry, studied and enacted labor laws affecting women in all the states, conducted an educational campaign for equal opportunity in industry and equal pay for work done by women with that of men for similar work. In short, a Democratic administration in less than four years has done vastly more for the welfare of women and children workers than did the Republicans in more than half a century of power.

The Protective Tariff
That is a joke. The so-called protective tariff of the Republican party became such a monster of injustice that it was forced to be revised for the welfare of women and children workers. The tariff needed revision. They elected Taft on a promise of revision, and then proceeded to revise it UPWARD, and make its grafting inequalities worse than ever. As a result, they were overwhelmingly defeated at the next election, and the Democratic administration did revise the tariff, not by making it non-protective where protection is just and really needed, but by taking the graft and inequality out of it. Also, the Democrats established a non-partisan tariff commission through which any just and fair amendment of the tariff can be secured, and this purely economic matter is taken out of party politics. Many leading Republicans had advocated such a commission, but their party managers would never permit its establishment.

Lower Taxes
After some more Harding platitudes which certainly mean nothing and promise nothing to women, the letter quotes him as believing that "the tax burdens imposed for the war emergency must be revised to the needs of peace." THIS is the face of the fact that for two years President Wilson has pleaded with the Republican congress to do that very thing, and has pleaded in vain. THIS in the face of the fact that for two years a Republican congress has refused to do anything of value or benefit to the public during a period when constructive legislation was urgently needed. And as to taxation, the Republican congress has refused to enact those great measures by which the first time in our history taxation is distributed in accordance with ability to pay, and swollen and tainted money are made to bear their just share of the burden, as the Rockefeller and the Morgans and the Vanderbilts can testify.

Waste at Washington
Old stuff, this cry of governmental extravagance. For fifty years it has been heard by the party out of power against the party in the saddle. But if there is waste, why has not a Republican congress done something about it during the past two years, when it had full power

to correct the evil? And this cry comes with poor grace from a party which was in full control during our little war with Spain in which we had the "embalmed beef" scandal, and the typhoid camps, and graft and inefficiency from start to finish, against a party in power during a war of far greater magnitude conducted with an efficiency and freedom from scandal never before approached by this or any other country.

About the League
The compiler of that remarkable letter evidently recognized that there is no defense of the position of Senator Harding on the peace treaty and the league of nations, for it contains no word on that, the real issue of the campaign. After he had wiggled and wobbled on all sides of that issue, he was finally forced to bow to the dictates of those blind partisans who are willing to sacrifice the welfare of humanity to gain a party victory, and has declared his positive opposition to ratification of the Versailles treaty. Thus Republican party leaders are asking the women to vote for a candidate who will place our country in opposition to 37 of the leading countries of the civilized world, and make another world war almost inevitable.

Nay, verily, sisters and brothers of the Republican Central Committee you must present something more satisfying than your wobbling candidate, your evasive platform, and your letter of sophistry, to induce women to vote your ticket for any reason other than blind partisanship. Those who vote for good and sufficient reasons will vote for COX and ROOSEVELT.

ORANGE COUNTY DEMOCRATIC WOMAN'S COMMITTEE.

THE ANTI-JAPANESE INITIATIVE AND THE UNIVERSITY 12C TAX

Riverside's Chamber of Commerce directors have considered the score of amendments and propositions to be voted on a week from Tuesday, and announce the chamber's recommendation as a suggestion to the people of Riverside.

They announce themselves in opposition to the anti-Japanese initiative, and they favor the University special tax of 12 cents on the \$100.

On these two propositions the San Bernardino Sun takes issue with the Riverside Chamber of Commerce, as follows: "Nothing will place California in a false light than for it to defeat this anti-Japanese law. Some of us may have had nothing to do with invoking it, but now that it is here, our vote will be interpreted nationally, and in favor of the Japanese coming into California, or of absolute opposition to such immigration. We cannot dodge behind Washington, and say we favor leaving it to the general government. The Congressmen from at least 40 eastern states will say, when anti-Japanese legislation comes up at the capitol, that California is not opposed to the Japanese, if this initiative is defeated.

"There is another phase to the question: Japanese land ownership is worse than Japanese labor. So long as the little brown men were only employed as hewers of wood and drawers of water, in other words, so long as they were employed only in classes of labor that are not much sought by our own people, their coming did not create special antagonism. It was only when they began to own or control land that they absolutely rooted the Americans out of the soil, and actually began to possess the land. That we cannot contemplate for an instant.

"As for the Riverside chamber's stand on the University amendment, nobody in Riverside or elsewhere is opposed to liberal support of the University, nor has the Legislature ever refused such support. It happens that the appropriations made two years ago were not sufficient, because the University, like everybody else, finds expenses increasing.

"This amendment would do much more than increase the University's funds. It would take the expenditures of those funds clear out from under the eyes of the State Board of Control, and provide for no State audit.

"Worse than that, it would permit \$762,000,000 of railroad and other corporate property to completely escape this special tax, because under the constitution, it is not assessable. Is that fair to other property owners?

"And it is establishing constitutionally, and therefore not easily changed, a special tax to meet unusual conditions that appear to be on the eve of heading back toward normal. Which is anything but wise."

Knauf and Faul, pioneer barbers, have opened handsome tonorial parlors in Room 236, W. H. Spurgeon building; elevator and stairway entrance, and are now ready for business. Three barbers and manicure service.

Fill Your Blood With Iron If You Want To Be Strong WITH PLENTY OF ENERGY AND POWER

Says Physician—Explains How Organic Iron Like Nuxated Iron Often Increases the Strength of Weak Nervous, Run-down People in Two Weeks' Time.

You cannot expect to forge ahead in life with plenty of energy and power if your blood is thin and watery any more than you can hope to run an automobile on water instead of gasoline. It takes pure, red blood—rich in iron—to keep the human machine working right. Without iron your every action lacks power, your red blood corpuscles die by millions, the strength goes from your body and you drop among the weaklings and failures.

But when such men and women supply the right kind of iron to their blood, a most surprising change often takes place. Dr. John J. Van Hone, formerly Medical Inspector and Clinical Physician on the Board of Health of New York City, "The Board of Health of New York City," says: "When the veins become more mobile, colorless iron is forced to carry on and work. Yet to take the wrong kind of iron may prove worse than useless just as the wrong sort of food will often fail to give the proper nourishment. Organic iron—Nuxated Iron—by enriching the blood and stimulating and does not injure the stomach, rebuilds the muscles and helps insulate the whole system with fresh vigor and endurance whether the person be young or old. I strongly advise every man or woman, who is lagged out by worry, work and other strains to build up strength, and your future. It is essential to all your health."

Manufacturers' Note: Nuxated Iron, which is well known to doctors everywhere, is like the other organic iron products it is made of pure iron and is not injurious to the stomach, does not upset the stomach, and the words Nuxated Iron are stamped into each bottle so that the person buying can be sure of getting the genuine. The manufacturer's name and address are also stamped into each bottle so that the person buying can be sure of getting the genuine. The manufacturer's name and address are also stamped into each bottle so that the person buying can be sure of getting the genuine.

News from Orange County Towns

CHILD OF FORMER GROVE WOMAN DIES

GARDEN GROVE, Oct. 27.—Sad news was received Tuesday by Mrs. C. R. Simmons of the death of her cousin, Vivian, little 2 year old child of Mrs. V. N. N. Simmons, formerly Miss Fannie May, who lived here before moving to San Jose where they now make their home. Mr. and Mrs. N. Simmons and three children visited at the home of Mrs. C. R. Simmons Thursday and left that night to visit relatives in Imperial Valley. Saturday morning little Vivian disappeared and her folks went to an irrigation canal that runs near the house and her body was found caught in the flood gates. The child had only been gone a few minutes so had died instantly. The bereaved parents have the sympathy of their relatives and friends here.

Mrs. Kate S. Hendricks entertained Magnolia Camp No. 1433 R. N. of A., Santa Ana, of which she is a member, at her home on Euclid avenue, Monday afternoon. The occasion was Mrs. Hendricks' birthday. The rooms were beautifully decorated in the camp colors of purple and white. Mrs. Hendricks was given a handkerchief shower and also other birthday presents, for which she thanked the ladies in appropriate remarks. Games and readings were enjoyed after which refreshments of ice cream and cake were served. Those present from Santa Ana were, Mesdames B. F. Dalbey, B. D. Sweet, George C. Post, T. F. McDonald, Geo. W. Casey, Sophia Rice, B. L. Wilson, Mammie Zimmerman, M. A. Miller and M. E. McKee.

The R. N. of A. is composed of good workers for the benefit of the sick and needy families of the order. Mrs. Hendricks was a charter member of one of the first camps organized over 25 years ago, at Springfield, Ill. She then moved to New York and helped organize the first camp in New York City, and coming to California was transferred to the Santa Ana camp.

V. E. Adland of Chicago, is enjoying a visit with his brother W. A. Adland. On his way here he stopped at San Francisco.

Mrs. C. C. Violet motored to Seal Beach Tuesday morning.

C. K. Lee, manager of the Garden Grove Walnut association, attended a meeting of the Walnut Growers' association of Orange county at Santa Ana, Monday evening.

T. Williams has gone to San Diego for a few days on business.

Mrs. E. E. Spain is spending the week with her daughter Mrs. Castleman, at Huntington Park.

Mrs. John Ward is expecting her parents, Mr. and Mrs. Weethee, her brother, Clifton Weethee and family, and Mr. and Mrs. Martin, all of Kansas, to arrive Thursday, to spend the winter in Garden Grove.

Rev. Grigg spent Tuesday in Los Angeles.

TUSTIN

TUSTIN, Oct. 27.—Mrs. F. Cassiday is entertaining friends from Philadelphia. They have come to spend the winter and intend to locate permanently in Tustin. They are delighted with this country.

A cottage prayer meeting will be held Thursday, 7:30 p. m., at the home of Mrs. Long on A. street.

The girls' base ball teams of Irvine and Tustin played a game on the school ground Monday afternoon which resulted in a score of 34 to 12 in favor of Tustin.

Miss Dougherty and Miss Long spent the week-end at the home of the latter's parents, Mr. and Mrs. H. S. Long.

Mr. Comer and family spent Sunday at Balboa.

Rev. Schneider is spending the week at San Francisco.

William Satterwhite is suffering from a severe attack of the grippe. Preparations to entertain the Associated C. of C. tonight are being completed.

Mr. and Mrs. K. Lindsey and Mrs. Perry motored to Long Beach Sunday, after church.

A very interesting missionary meeting was held at the home of Mrs. Thorman last Thursday. At the meeting it was decided to meet hereafter at the homes of the different members. It was also decided that the menu should be limited to two articles.

BREAKS LEG WHILE WORKING ON STACK

DANVILLE, Pa., Oct. 27.—Working on the smelter at the plant of the American Swede Iron company here, John Delany had a narrow escape from death. The damper at the top of the stack had rusted and when he pulled the damper chain the damper fell, striking him on the right leg with such force that the limb was broken near the knee. Delany clung to the post until other workmen saw his plight and aided him to the ground. The damper, which weighs 300 pounds, crashed through the roof near where other workmen were standing.

PLAYFUL SLAP SAVES LIFE OF LITTLE CHUM

MEMPHIS, Ga., Oct. 27.—A five-year-old girl succeeded the other day where nine doctors had failed. She saved the life of a friend, Vera Black, nine-year-old daughter of E. A. Black, swallowed a prune seed more than two months ago. The seed lodged in her lungs.

Doctors said she'd die if the seed was not removed. Three operations failed to locate the seed. The X-ray wouldn't photograph it. The child was dying, breathing with difficulty through a silver tube. A five-year-old friend came to see Vera and during a game slapped her on the back. She coughed and the seed flew out. She's well now.

PILGRIMAGE CALLED OFF

NEW YORK, Oct. 27.—Plans for a pilgrimage of 100 clergymen to Senator Harding's home at Marion have been abandoned because of the candidate's press of other engagements. It was announced by Republican national headquarters.

SPEED LAWS NO AID TO BASEBALL PLAYER

FULLERTON, Oct. 27.—Having his eye on a portion of the state receipts of a ball game at San Diego, Sunday, and also not wishing to disappoint the dear public by the lateness of the game, Byron S. Houck, a member of the Vernon ball team, accompanied by three others of the Vernon club, were whizzing through Fullerton Sunday morning on their way to San Diego when they were tabbed by the city marshal for speeding and in a letter to Judge French from Houck, received today, he gave the above excuse for being in a hurry, also adding that the car developed engine trouble further back on the road, which caused delay. He asked that the judge consider the reasons for the high speed and "not asking any favors" he asked if the reasons given were not sufficient excuses to overlook the violation of the motor laws. The judge could find no loophole in the laws whereby the offender was notified that the amount of his fine is \$10.

SEEK SUPPORT FOR ORANGE CHAUTAUQU

ORANGE, Oct. 27.—The opportunity to secure a Chautauqu for Orange next year is being offered this week to the people of Orange, by Mrs. Bernice Upton, representative of the Ellison-White system, who is undertaking to pledge the purchase of a number of tickets for the series of entertainments proposed.

The Ellison-White company gave several chautauqu here before the war and it is hoped that the town can be again placed on the circuit. The high character of the chautauqu entertainments is everywhere recognized and many local people feel it to be to the interest of the community to supply such entertainment here.

A local committee has undertaken to conduct the Chautauqu on condition that the community gives evidence of its desire to support one. Mrs. Upton, therefore, has undertaken to secure a list of pledges to purchase tickets, which pledges will be turned over to the Orange committee.

Those who have undertaken to direct the chautauqu are F. C. Drumm, F. E. Hallman, G. G. Richards, E. J. Brown, M. M. Fishback, W. O. Hart, J. W. Morrison, Dr. H. A. Domann, W. H. Faerber, W. F. Feldner, G. L. Bates, N. T. Edwards, E. H. Smith, H. W. Ehlert, H. J. Snow, G. C. Woods, L. W. Thompson, M. E. White, P. D. Dewwood, W. H. Carpenter, H. E. Gollagher, O. E. Gunther, P. A. Grote, D. G. Wetlin, C. A. Wood, Nichols, A. L. Tomblin, C. A. Wood, John Harms.

ST. JOHN IN AGAIN ON BURGLARY CHARGE

LOS ANGELES, Oct. 27.—The "ins" and "outs" of Clarence (Wingie) St. John come so rapidly that only the police officials can keep track of them. "Wingie" was acquitted of burglary a week ago. He met George Manning, co-defendant, in the burglary charge, coming out of jail, and they proceeded to specialize in "Wingie's" wife, Olive Fletcher St. John, daughter of the state labor commissioner of Michigan.

"Wingie" couldn't find her, although he searched earnestly for several days. He even asked city and county officials to aid him. Olive could not be found, but five days later, Deputy Sheriff R. Lee Conis, William Bright and "Pinkie" Holbrook found "Wingie."

They not only found him, but put him in jail so they could find him whenever they wanted to. They also put Manning in with him. To be sure they wouldn't let away, they charged the pair with burglary of the home of Mr. and Mrs. M. L. Warner. Because the deputies said they found jewelry belonging to the Warners on "Wingie" and Manning, Justice Howard Hinshaw fixed their bail at \$3000.

Back in jail, "Wingie" said the matter about which he wished to confer with Olive could wait. When Olive was last seen she observed that she didn't care whether she ever saw "Wingie."

FAMOUS BANDIT NOW EMBROIDERY EXPERT

RAWLINS, Wyo., Oct. 27.—William L. Carlisle, the train bandit whose exploits have filled more newspaper columns than those of any fiction character of like stamp, is leading an exemplary existence in the penitentiary here by spending his efforts on attempts at artistic embroidery work. Much of his handiwork has been sold to provide him with funds to pursue studies which he has taken up. Carlisle still suffers from the wound in his chest received when captured by officers last winter and he is yet unable to perform much manual labor.

SCRATCH FROM PIN BRINGS \$30,000 SUIT

DALLAS, Texas, Oct. 27.—The scratch of a pin which merely pricked the skin of one finger has resulted in a damage suit for \$30,000 here. Dr. J. H. Marshall is suing Abraham Buckspan of the Hudson Bay company for that amount of damages alleged to have been incurred when the doctor rubbed his hand fondly over the fur his wife was about to purchase from the company and the finger came in contact with a pin.

The petition alleges that Mrs. Marshall called her husband over to the company's store to inspect a fur she wanted, and when the doctor rubbed his hand over the fur he was scratched by a pin hidden in the piece. The petition alleges that the pin was "poisonous" and that blood poison set in as a result of a scratch.

The doctor declares in his petition that, as a result, eight operations and fifteen incisions have been necessary to save the digit and claims that the finger has become so stiffened that his earning capacity has been impaired. He declares he had been earning \$2,000 monthly and lost \$5,000 in fees while in the hospital.

He alleges that he cannot now perform important operations alone because of the stiff finger; also that it causes him great difficulty in eating, embarrasses him because of the awkward manner in which he is forced to use his fork and handicaps him in dressing.

CHILD KILLS THREE LARGE RATTLESNAKES

CRAIG, Col., Oct. 27.—Three large dead rattlesnakes, one of them four feet long, with fifteen rattles and a button, tell of the bravery of little thirteen-year-old Lottie Talkington, who went to dig potatoes on the ranch of the Williams Fork Land & Cattle company. She was armed with a grubbing hoe when she met a rattler. She cut his head off with the hoe. Instantly the warning buzz of a second snake came from behind her, and she turned and killed it after a few exciting skirmishes with the hoe. The third and largest was only fifteen feet away, and the girl advanced and killed it also.

REASONS GIVEN FOR HIGHER TAX RATES

FULLERTON, Oct. 27.—Since owners of property have begun receiving their tax statements Perry Woodward, assessor for the Fullerton district, has been bombarded with telephone calls and personal visits from the public who are making a big protest over the increase in their taxes and desire an explanation.

Mr. Woodward pleads not guilty to being a party to the raise in valuations and tax rate. The county assessor's office has also been a mark for the public to aim at since the statements have been mailed to taxpayers.

Usually when the valuations are raised the tax rate is lowered. This year, however, not only have the valuations been increased, but also the tax rate, making a double barreled shot at taxpayers.

The county tax rate in the city of Fullerton has been increased from \$1.00 to \$1.50, and the Fullerton district rate has been increased from 90 cents to 95 cents. The school rate has been increased from 72 cents to 92 cents, which is the explanation, if the taxpayers can find any consolation in that.

The principal reason for the increase in the city of Fullerton is the decrease in valuation in the Standard-Murphy oil fields which have dropped enormously the past year. Not only has production been lessened but there has been little new development to increase the oil flow of that field.

Fullerton has been enjoying for several years the lowest tax rate of any city in the state except one in the northern part of the state. Notwithstanding the increase in valuations and tax rate this year, this city still has a much lower tax rate than most any of the other cities.

Santa Ana city rate is \$1.65, against Fullerton's 95 cents. The special school rate of the county seat city is \$1.55 as against 92 cents for Fullerton.

Taxpayers of Fullerton who have been enjoying the low tax rate for the past several years are now called upon to pay more to make up for the privileges they have enjoyed in years past on account of the oil field valuations. Then it is also in line with the high cost of everything.

TEACHERS HONORED BY WOMAN'S CLUB

ORANGE, Oct. 27.—The reception given Monday evening at the Woman's club rooms by the club ladies and their husbands, honoring the teachers of Olive, Villa Park, El Modena and Orange, was one of the most important events of the season.

A large crowd was present to greet the teachers, and the hall with its homelike arrangement and decorations, made one feel "at home" immediately.

With greenery around the lamp shades and draped around the room, and huge bowls of dahlias, zinnias and mixed flowers scattered around the hall on stands, surrounded by chairs arranged in a cozy manner, and filled with happy chatting people, the hall presented a picture of beauty and pleasure.

Mrs. Bishop, the president, has started the new club year off in a splendid manner. What could be more thoughtful or important than getting teachers and parents together in such a splendid social way, and who should be the leaders of such affairs if not the ladies of the club?

Mrs. A. Bennett in her gracious manner gave a warm welcome to the teachers on behalf of the ladies and their "better nine-tenths," expressing their willingness to stand by the teachers at all times and in all ways.

Mrs. Mathews, violinist, and Mrs. Peck, pianist, both of Santa Ana, beautifully entertained the assembly with their wonderful music. Mrs. Peck is a rare accompanist, following and easily expressing the feeling brought out by the violinist.

Mrs. Mathews knows her violin and makes it speak her feelings which are those of a true musician. She also sings in a beautiful voice, and she charmed the audience that they were called upon to respond to repeated encores.

After the program the ladies served ice cream and cake. Over 100 were present.

FINDS U. S. HORSES ARE BEST FOR ARMY

CAMP DEVENS, Maine, Oct. 27.—Mlle. Denise, the great thoroughbred mare, owned by the army remount service and ridden by Major Stanley Koch of the general staff, was declared the winner of the 300-mile equine endurance test, the object of which was to determine the type of horse best suited for the cavalry service.

Rustem Bey, the full-blooded Arab, was awarded second place, and Bunkie, stablemate of Mlle. Denise and of the same breed, was third.

The finding took into account speed, condition and economy of feed consumption. Only ten of the twenty-seven horses which started the test from Fort Elhan Allen finished.

Eye Specialist and Medical Author

Report on Wonderful Remedy

To Strengthen Eyesight

Say It Strengthens Eyesight 50% In One Week's Time In Many Instances.

New York.—Dr. Smith, a well known eye specialist, and Dr. Judkins, a Massachusetts physician and medical author, make the following reports after a thorough test of a popular remedy for the eyes:

Says Dr. Smith: "When my attention was first called to it, I was inclined to be skeptical. But it is a rule of mine to give every new treatment a chance to prove its value. Having specialized in eye work for many years, I feel qualified to express an intelligent opinion on remedies for the eyes. Since this one has created such a sensation I welcome the opportunity to test it. I began to use it in my practice a little over a year ago and I am frank to say that some of the results I have accomplished with Bon-Opto not only astonished myself but also my colleagues."

When I have talked about it, and I add every thoughtful physician to give the same careful trial I have had and there is no doubt in my mind that he will come to the conclusion I have, that it opens the door for the cure of many eye troubles which have heretofore been difficult to cope with. I have had individuals who had worn glasses for years tell me they have been able to do without them through the use of Bon-Opto. In my own practice I have seen it strengthen the eyesight more than 50 per cent in one week's time. I have also used it with surprising results in cases of work-strained eyes, pink eye, inflamed lids, catarrhal conjunctivitis, smarting, painful, itching eyes, eyes weakened from colds, smoke, sun, dust and wind, and eyes which were vision, and, in fact, many other conditions too numerous to mention in this report. A new and striking case that has just been brought to my attention is that of a girl 12 years old. Two eye specialists, after a thorough examination, decided, according to her father, that in order to save the sight of her right eye, the left must be removed. While awaiting an opportunity for the operation and still undecided as to its wisdom, her father was told it would do no harm to use Bon-Opto. In less than three days a marked improvement was noticed. At the end of a week the inflammation had

DERRICK CONTRACT LET BY LA HABRA MIDWAY

LA HABRA, Oct. 27.—Contract was let Friday for the derrick for Well No. 1 of the La Habra Midway Oil Co., which has a lease on 116 acres of land to the northwest of La Habra, extending from one corner of the Esplot addition to the county line. Bird & Allen, rig contractors of Brea, got the job.

For the first well a 114 foot standard derrick will be erected on a location on what is known as John Kruse place to the northwest of town. It is the intention of the company to have the work pushed to start drilling as soon as possible.

TEACHERS HONORED BY WOMAN'S CLUB

ORANGE, Oct. 27.—The reception given Monday evening at the Woman's club rooms by the club ladies and their husbands, honoring the teachers of Olive, Villa Park, El Modena and Orange, was one of the most important events of the season.

A large crowd was present to greet the teachers, and the hall with its homelike arrangement and decorations, made one feel "at home" immediately.

With greenery around the lamp shades and draped around the room, and huge bowls of dahlias, zinnias and mixed flowers scattered around the hall on stands, surrounded by chairs arranged in a cozy manner, and filled with happy chatting people, the hall presented a picture of beauty and pleasure.

Mrs. Bishop, the president, has started the new club year off in a splendid manner. What could be more thoughtful or important than getting teachers and parents together in such a splendid social way, and who should be the leaders of such affairs if not the ladies of the club?

Mrs. A. Bennett in her gracious manner gave a warm welcome to the teachers on behalf of the ladies and their "better nine-tenths," expressing their willingness to stand by the teachers at all times and in all ways.

Mrs. Mathews, violinist, and Mrs. Peck, pianist, both of Santa Ana, beautifully entertained the assembly with their wonderful music. Mrs. Peck is a rare accompanist, following and easily expressing the feeling brought out by the violinist.

Mrs. Mathews knows her violin and makes it speak her feelings which are those of a true musician. She also sings in a beautiful voice, and she charmed the audience that they were called upon to respond to repeated encores.

After the program the ladies served ice cream and cake. Over 100 were present.

FINDS U. S. HORSES ARE BEST FOR ARMY

CAMP DEVENS, Maine, Oct. 27.—Mlle. Denise, the great thoroughbred mare, owned by the army remount service and ridden by Major Stanley Koch of the general staff, was declared the winner of the 300-mile equine endurance test, the object of which was to determine the type of horse best suited for the cavalry service.

Rustem Bey, the full-blooded Arab, was awarded second place, and Bunkie, stablemate of Mlle. Denise and of the same breed, was third.

The finding took into account speed, condition and economy of feed consumption. Only ten of the twenty-seven horses which started the test from Fort Elhan Allen finished.

Eye Specialist and Medical Author

Report on Wonderful Remedy

To Strengthen Eyesight

Say It Strengthens Eyesight 50% In One Week's Time In Many Instances.

New York.—Dr. Smith, a well known eye specialist, and Dr. Judkins, a Massachusetts physician and medical author, make the following reports after a thorough test of a popular remedy for the eyes:

Says Dr. Smith: "When my attention was first called to it, I was inclined to be skeptical. But it is a rule of mine to give every new treatment a chance to prove its value. Having specialized in eye work for many years, I feel qualified to express an intelligent opinion on remedies for the eyes. Since this one has created such a sensation I welcome the opportunity to test it. I began to use it in my practice a little over a year ago and I am frank to say that some of the results I have accomplished with Bon-Opto not only astonished myself but also my colleagues."

When I have talked about it, and I add every thoughtful physician to give the same careful trial I have had and there is no doubt in my mind that he will come to the conclusion I have, that it opens the door for the cure of many eye troubles which have heretofore been difficult to cope with. I have had individuals who had worn glasses for years tell me they have been able to do without them through the use of Bon-Opto. In my own practice I have seen it strengthen the eyesight more than 50 per cent in one week's time. I have also used it with surprising results in cases of work-strained eyes, pink eye, inflamed lids, catarrhal conjunctivitis, smarting, painful, itching eyes, eyes weakened from colds, smoke, sun, dust and wind, and eyes which were vision, and, in fact, many other conditions too numerous to mention in this report. A new and striking case that has just been brought to my attention is that of a girl 12 years old. Two eye specialists, after a thorough examination, decided, according to her father, that in order to save the sight of her right eye, the left must be removed. While awaiting an opportunity for the operation and still undecided as to its wisdom, her father was told it would do no harm to use Bon-Opto. In less than three days a marked improvement was noticed. At the end of a week the inflammation had

almost disappeared, and at the end of six weeks the eye was pronounced saved. Just think what the saving of that eye means. Now girl! Another case is that of a lady 33 years old. She came to me with old vision and a conjunctivitis which had been treated two weeks' use of Bon-Opto. The lids were absolutely normal and her eyes were as bright as many a girl of 16."

Dr. Judkins, Massachusetts physician and medical author, formerly chief of clinics in the Union General Hospital, Boston, Mass., and formerly house surgeon at the New England Eye and Ear Infirmary of Portland, Maine, says:

"I have found oculists too prone to operate and opticians too willing to prescribe glasses, while neglecting the simple formulas which form the basis of Bon-Opto, which in my opinion, is a remarkable remedy for the cure and prevention of many eye diseases. Its success in developing and strengthening the eyesight will soon make eye-glasses old-fashioned and the use of Bon-Opto as common as that of the tooth brush."

I am thoroughly convinced from my experience with Bon-Opto that it will strengthen the eyesight at least 50 per cent in one week's time in many instances."

Victims of eye strain and other eye weaknesses and many who wear glasses will be glad to know that according to Dr. Smith and Judkins there is real relief and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable remedy and many who once wore glasses say they have laid them aside. One man says after using it:

"I was almost blind. Could not see to read at all. Now I can read everything without any glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses." Another who used it says: "I was bothered with eyestrain, caused by overworked, tired eyes which

WHATSOEVER CIRCLE AT MRS. MEYER'S

ORANGE, Oct. 27.—Whatever Circle of the King's Daughters met on Monday afternoon at the home of Mrs. E. L. Meyer. Six members and one visitor were present.

The work on hand was the tying of a quilt, and good progress was made. The penny collection amounted to 42 cents.

The election of officers for the ensuing year resulted as follows: President, Mrs. E. T. Lee; vice-president, Mrs. Sarah Hyle; secretary and treasurer, Mrs. John F. Lee. Mrs. M. E. Williams was appointed chairman of the work committee, with Mrs. Todhunter as her assistant.

The next meeting of the circle will be held at the home of Mrs. E. L. Meyer, 360 South Center street, on Monday, November 8, at 2:30 p. m. A full attendance of members and others interested is urged.

Mrs. and Mrs. W. O. Higgins and family, Mr. and Mrs. Frank Maroney, Ernest Rydberg and Le Roy Valentin, motored to Long Beach Sunday to surprise Mrs. W. B. Hampton, a sister of Mrs. Higgins, on her birthday.

They took everything for a wonderful dinner, chicken, birthday cake and candles, etc. They were joined by Mr. and Mrs. Fred Hampton, Mr. L. Hally, and the members of the W. B. Hampton family.

Mr. and Mrs. A. Abraham, Hattie Abraham and Albert Abraham, Jr., accompanied Mr. Herman Walter and son, Arthur, to Glen Ivy Sunday. On their return trip an unknown man ran into them and took off the hub of the left front wheel.

PLENTY OF ROOM LEFT FOR ANOTHER BURBANK

Wanted—Another Luther Burbank. Members of the Division of Genetics of the College of Agriculture of the University of California today stated that while Burbank has introduced many new plants and other fruits and new strains of great value, there is great and pressing need of scientific investigations of the fundamental principles underlying sound agricultural practice.

No branch of scientific agriculture has increased in importance as rapidly as plant breeding. It was said that the United States Department of Agriculture employs 161 experts in plant breeding, and there are more than 250 government-employed plant breeders in this country.

CHARGES SYNDICATE CHEATS IMMIGRANTS

NEW YORK, Oct. 27.—Names and addresses of many fake organizations, and their agents here and abroad, suspected of fleecing thousands of immigrants by accepting money for assurances of aid in obtaining their admission to the United States, will be forwarded to Washington authorities for prosecution, it was announced at Ellis Island.

Harry H. Schlect, newly appointed head of immigrants aid at Ellis Island, who reported to Commissioner of Immigration Wallis on the subject, declared the ramifications of the fraud are international in scope. American and other agents abroad, purporting to represent various organizations, or societies, of great aims, seemingly are designed to assist immigrants about to sail for America, in many cases secured victims through the medium of advertisements in the foreign press Schlect said.

In this connection he declared that it is violation of the law to assist delegates or agents to Europe to induce immigration and arrange for transportation with the assurance of
